Dear Sir, I was delighted to hear that the FCC was going to treat the broadband internet as it has the landline phone years ago. I always felt that was a very smart American thing to do. I am a 67y.o. female, veteran Registered nurse of Viet Nam and I am still working but I feel elderly on a limited budget should also have access to a affordable broadband internet. I hope you will keep that in mind as well. Thank you for what you do for this country. Louise V. Doherty

P.s. If I am sending this to the wrong place would you kindly re-route it for me. Muchos gratias.
