**ERRATUM TO COMMENTS OF  
VIRGIN ISLANDS PUBLIC TELEVISION SYSTEM**

The Virgin Islands Public Television System, licensee of public television Station WTJX-TV, Charlotte Amalie, St. Thomas, U.S.V.I. (VIPTS), filed Comments in this proceeding asking that the Commission's report to Congress include information on the plight faced by VIPTS by a quirk in the law that denies it "carry-one, carry-all" status. Included in those Comments was one statement that VIPTS has learned is not correct. It noted that the station is part of the DHS/FEMA public television portion of the Wireless Emergency Alert System (WEA) and suggested that lack of carriage of the WTJX-TV signal on the DISH system undercut the effectiveness of that system. VIPTS has since learned that the WEA system is activated only by the over-the-air signal and that DBS carriage does not affect WEA operations. It regrets the error. However, the other points made in the Comments concerning the deprivation of DBS

subscribers in the Virgin Islands through lack of their local public television signal stand.

Respectfully submitted,

VIRGIN ISLANDS PUBLIC TELEVISION SYSTEM
