NET NEUTRALITY-
(noun)

the principle that Internet service providers should enable access to all content and applications regardless of the source, and without favoring or blocking particular products or websites.

WE THE PEOPLE WANT NET NEUTRALITY! Taking away net neutrality will only lead to the richer getting richer and the poor getting poorer, but will limit the opportunity of the small businesses to grow and expand. In short, this would simply be a hard blow to the American dream. Keep Net Neutrality.
