Concerning the STELA Reauthoriztion Act of 2014 (STELAR), I would like to comment that as a Dish Network customer in rural Platte County, Wyoming, I am not able to receive Wyoming PBS, or any Wyoming television stations. Wyoming PBS in particular is geared towards its residents with local Wyoming programs and educational materials paid for by taxpayers and citizens of the state. Wyoming PBS also provides critical access to emergency broadcast signals in the state. The "local to local" rule should definitely change so that my satellite TV carrier includes Wyoming PBS for all Wyoming viewers.
