

60001076891.txt

WTDA-LPFM operates on a 24 hour schedule, 7 days per week and provides weather and much needed emergency information to our county. This station is the only EAS station in a county that has suffered during such hurricanes as Floyd and many others.

The station provides information to our county's citizens regarding all of our county government services, meetings and events. Some of the programming is directly targeting our veterans and senior citizens' services.

Please consider the possibility of allowing an increase in our power. Thank you.
