As Mayor, I am commenting on behalf of myself and my Town Board of Commissioners. We are requesting increase in power for WTDA-LPM 96.5 as well as for other local stations of similar power. Our local station is the only emergency alert system for Martin County. It offers free access to all civic and governmental organizations, employment opportunities for veterans, and services for senior citizens and this is only a short list of what it provides for our citizens. Its importance to us is profound. Please seriously consider this comment and provide this increase in power.

Sincerely, Charlotte B. Griffin
