

60001077153.txt

I know I want an open and free market for the internet. My bill with Charter Cable went from \$19.99 to \$51.00, in 3 years my bill went up 250%. I am a disabled poverty stricken veteran with limited funds so that after I pay all my bills I have less than \$100 for the madcap, frivolous lifestyle I lead. I haven't eaten a piece of steak in a year.

Please don't hit me up for more money because if I lose the internet I will have only a telephone to keep up with the outside World.

Sincerely,
Donald R Shelley Jr
