We are writing in regards to the STELA Reauthorization Act of 2014 (STELAR). We live in Platte County, WY and subscribe to Direct TV. Since we moved to WY in 2011, we have been disappointed that Wyoming PBS is not included in our satellite TV service.

We contribute tax dollars toward this station, but cannot watch it. It is our belief that the "local into local" rule should be changed so that communities in Wyoming can have access to Wyoming PBS. We respectfully ask that the STELA Reauthorization Act of 2014 be changed so that Wyoming residents have access to Wyoming PBS broadcasts via their satellite providers.
