We have DirecTV in Carbon County of Wyoming. We believe it is wrong that our satellite TV service does not carry Wyoming PBS, which airs local Wyoming programs that we help pay for as taxpayers, and provides critical access to emergency broadcast signals within Wyoming.

We believe that the "local into local" rule should change so our satellite TV carrier, namely DirecTV, includes Wyoming PBS for us. We have no cable TV access here and we would like to receive our local in-state stations on satellite.
