DOCKET FILE COPY ORIGINAL

Re: *Telecommunications Carriers Eligible to Receive Universal Service Support; Boomerang Wireless, LLC's Petition for Limited Designation as an Eligible Telecommunications Carrier in Alabama, Connecticut, Delaware, the District of Columbia, Florida, Maine, New Hampshire, New York, North Carolina, Tennessee and Virginia, WC Docket No. 09-197*

Dear Ms. Dortch:

On June 5th, Dennis Henderson, Co-Founder and Chief Executive Officer of Boomerang Wireless, LLC ("Boomerang"), and Scott Blake Harris and Susannah Norvell of this firm, met with Jon Wilkins, Managing Director, and Trent Harkrader, Jodie Griffin, and Ryan Palmer of the Wireline Competition Bureau. During the meeting, we discussed Boomerang's above-captioned request that it be designated as an Eligible Telecommunications Carrier to provide Lifeline service.

Mr. Henderson explained that Boomerang believes that the future of Lifeline service is and should be focused on data. He said that using Lifeline for data services would help close the digital divide, and noted that Boomerang has made data available as part of its free Lifeline service and has made additional data available to Lifeline customers for a fee. He also noted that the amount of data used by Lifeline customers is very much a function of the device used to access the service.

Mr. Henderson also discussed the company's future business plans. ***BEGIN

CONFIDENTIAL***

[REDACTED]

END CONFIDENTIAL

As demonstrated by its unique approach to the customer relationship, Boomerang is a careful Lifeline provider committed to careful stewardship of the Lifeline program and the needs of Lifeline customers. Approval of Boomerang's ETC Petition would allow Boomerang to substantially expand the areas where it can serve customers, thereby expanding the availability of broadband for low income consumers.

REDACTED FOR PUBLIC INSPECTION
