**(100) Service Quality Improvement Reporting  
Data Collection Form**

FCC Form 481  
OMB Control No. 3060-0986/OMB Control No. 3060-0819  
July 2013

<010> Study Area Code 504449

<015> Study Area Name NAVAJO - UT - FRONTIER

<020> Program Year 2016

<030> Contact Name - Person USAC should contact regarding this data Cassandra Guinness

<035> Contact Telephone Number - Number of person identified in data line <030> 5857774557 ext.

<039> Contact Email Address - Email Address of person identified in data line <030> cassandra.guinness@ftr.com

<110> Has your company received its ETC certification from the FCC?  (yes / no)  (yes / no)

<111> If your answer to Line <110> is yes, do you have an existing "5 year plan" filed with the FCC?  (yes / no)  (yes / no)

If your answer to Line <111> is yes, then you are required to file a progress report, on line <112> delineating the status of your company's existing § 54.202(a) "5 year plan" on file with the FCC, as it relates to your provision of voice telephony service.

<112> Attach Five-Year Service Quality Improvement Plan or, in subsequent years, your annual progress report filed pursuant to 47 C.F.R. § 54.313(a)(1). If your company is a CETC which only receives frozen support, your progress report is only required to address voice telephony service.

Name of Attached Document

Please select the appropriate responses below (Yes, No, Not Applicable) to confirm that the attached document(s), on line 112, contains a progress report on its five-year service quality improvement plan pursuant to §54.202(a). The information shall be submitted at the wire center level or census block as appropriate.

- <113> Maps detailing progress towards meeting plan targets
- <114> Report how much universal service (USF) support was received
- <115> How much (USF) was used to improve service quality and how support was used to improve service quality
- <116> How much (USF) was used to improve service coverage and how support was used to improve service coverage
- <117> How much (USF) was used to improve service capacity and how support was used to improve service capacity
- <118> Provide an explanation of network improvement targets not met in the prior calendar year.

FCC Form 481

Line 100 – Service Quality Improvement Reporting  
[47 CFR 54.313(a)(1)]

In the FCC's Public Notice DA 14-951, released May 1, 2014, the FCC waived the requirement for price cap ETCs to file a five-year plan.<sup>1</sup>

---

<sup>1</sup> The Public Notice stated, in relevant part:

We now grant a waiver of this requirement for price cap ETCs for an additional year. Because the Bureau just finalized the Connect America Cost Model, and price cap carriers have not yet had the opportunity to make a state-level commitment for Connect America Phase II, we find that it is not in the public interest to require price cap ETCs to file new five-year plans in 2014 for the same reason as last year: they do not yet know which areas they will be serving in the future.

FCC Form 481

Date of Potential Customer's Request (mm/dd/yyyy)	Date When the Request was Considered Unfulfilled (mm/dd/yyyy)	Name of Exchange/ Wire Center	Description of Service Request	How Service Fulfillment was Attempted/Reason for Unfulfillment (If fulfilled in 2013, include date of fulfillment.)
---	---	----------------------------------	--------------------------------	---

Line 510 – Description of Compliance with Service Quality Standards and Consumer Protection:

The Frontier ILEC companies certify that they comply with applicable state and FCC service quality standards. Service quality metrics are monitored and reported on a monthly basis.

Frontier has implemented numerous Consumer Protection measures to protect customer information from improper use and disclosure as well as to protect against fraud. For example, Frontier has implemented Customer Proprietary Network Information (policies and procedures) that are consistent with the FCC's regulations. Frontier regularly trains employees who have access to CPNI on the rules and our procedures for securing accounts and authenticating callers. Frontier also has a comprehensive Identity Theft Protection Program (or Red Flag program) which is consistent with the FTC's guidance on measures to detect and prevent identity theft. All employees are trained on Frontier's Code of Business Conduct and Ethics, which requires employees to protect sensitive customer information from improper use and disclosure. Frontier also has a Data Privacy and Security policy which applies to all employees. Further, Frontier also has implemented a strict third-party qualification protocol to prevent unauthorized charges ("Cramming") from appearing on customer's bills. Frontier also follows a "First Call" resolution policy, which aims to resolve customer complaints about unauthorized charges in one call, without referral to any third party. In addition to the foregoing, Frontier, has implemented customary IT security measures to protect our network and customer information.

Frontier certifies compliance with Utah state consumer protection rules; Utah Rule R746-240 - Telecommunication Service Rules and Rule R746-340 - Service Quality for Telecommunications Corporations.

The Utah state consumer protection rules are available at:

<http://www.rules.utah.gov/publicat/code/r746/r746-240.htm>

<http://www.rules.utah.gov/publicat/code/r746/r746-340.htm>

## Row 610 - Description of Functionality in Emergency Situations

In December 2013, the FCC adopted new rules to promote 911 resiliency, and it has requested initial certification of substantial progress towards meeting these new requirements by October 15, 2015. See DA 14-1664. Frontier is currently in the process of ensuring that its back-up power, circuit auditing, and network monitoring practices comply with these new rules and anticipates that it will be able to provide the necessary certification by October 15, 2015.

As Frontier works to ensure compliance with these new rules, Frontier's past procedures are described below, and they represent the minimum level of functionality of Frontier's network in emergency situations. Again, Frontier anticipates it will comply with the FCC's initial certification by October 15, 2015.

The Frontier ILEC companies certify that they follow best practices that are designed to allow them to remain functional in an emergency situation through the use of back-up power to ensure functionality in the event of a limited commercial power failure. Frontier's policy is that at sites where there is a generator, it will also have batteries capable of providing three-to-four hours of backup power. Sites that are provisioned to allow portable generators typically have up to eight hours of battery backup power available. Frontier adheres to formal maintenance and testing schedules of batteries and generators based on the GTE practices, the Bell standard and manufacturer standards. Batteries are load tested routinely. On site generators are tested monthly with an annual "blackout" test also incorporated. Routine maintenance occurs regularly throughout the year. Portable generators are load tested once a year along with performing the manufacturer recommended maintenance.

The Frontier ILEC companies' network is engineered to provide maximum capacity in order to handle excess traffic in the event of traffic spikes resulting from emergency situations. Frontier audits its circuits in order to provide redundancy in its network where feasible for use in re-rerouting traffic when facilities are damaged.

Line 920 – Tribal Government Engagement Obligation

During the months of June and July of 2014, the company contacted the respective tribal leader for each Tribal Land identified on line 910 by mailing via U.S. Postal Service, Certified Mail an Annual Tribal Government Engagement letter, which an example is included as Attachment "A". The letter included a copy of the Public Notice, released July, 19, 2012 by the Office of Native Affairs and Policy, Wireless Telecommunications Bureau and Wireline Competition Bureau which provided further guidance on the Tribal engagement obligation and an informational bulletin describing the Federal Tribal Lifeline and Tribal Linkup support programs.

In addition, the company's local general manager or representative responsible for making decisions contacted each tribal leader via telephone or, in some cases, in person to initiate on-going discussions to address the Tribal engagement obligations.

July 28, 2014

Mr. Ben Shelly, President  
Navajo Nation, Arizona, New Mexico and Utah  
P.O. Box 7440  
Window Rock, Arizona 86515

RE: Annual Tribal Government Engagement and Lifeline Availability

Dear President Shelly:

In November 2011 the Federal Communications Commission (FCC) issued its *USF/ICC Transformation Order* reforming the federal Universal Service Fund (USF) and intercarrier compensation system.<sup>1</sup> As part of the *USF/ICC Transformation Order*, the FCC adopted a Tribal government engagement requirement for all eligible telecommunications carriers that are currently serving or are seeking to serve tribal lands.<sup>2</sup> The Tribal government engagement requirement is intended to benefit Tribal government leaders, communication service providers and consumers living on Tribal lands, ultimately providing greater connectivity to 21<sup>st</sup> century economic opportunities, education, health care and public safety.

Enclosed is a copy of the Public Notice released July 19, 2012, by the FCC's Office of Native Affairs and Policy, which provides further guidance on the Tribal government engagement obligations.

At your earliest convenience, I would appreciate hearing from you in order to schedule a meeting and begin discussing these important issues which are vitally important to the successful deployment and provision of communication services on Tribal lands.

I have also enclosed an informational bulletin which describes the Federal Tribal Lifeline and Tribal Linkup support programs available to eligible residents of Tribal lands. I hope you find this information helpful and will share it with your tribal members and constituents.

Sincerely,

A handwritten signature in cursive script that reads "Mark K. Jeffries".

Mark Jeffries  
General Manager

Telephone: 928-537-6660

 WT Docket No. 10-208  
 GN Docket No. 09-51

## **I. INTRODUCTION AND SUMMARY**

1. By this Public Notice, the Federal Communications Commission's (FCC or Commission) Office of Native Affairs and Policy (ONAP), in coordination with the Wireless Telecommunications and Wireline Competition Bureaus (the Bureaus), provides further guidance on the Tribal engagement obligation adopted in the *USF/ICC Transformation Order*.<sup>1</sup> This document is intended to facilitate the required discussions between Tribal government officials and communications providers either currently providing or seeking to provide service on Tribal lands with the use of Universal Service Fund (USF) support.<sup>2</sup>

2. The broad goal of the guidance provided today, and future efforts to establish best practices, is to ensure the effective exchange of information that will lead to a common understanding between Tribal governments and communications providers receiving USF support, on the deployment and improvement of communications services on Tribal lands. The Tribal engagement obligation is intended to benefit Tribal government leaders, service providers, and consumers living on Tribal lands, ultimately providing greater connectivity to 21<sup>st</sup> century economic opportunities, education, health care, and public safety. This obligation is related to the very essence of universal service – facilitating and supporting connectivity to and from the most remote areas of our nation inures to the benefit of all. Requiring Tribal engagement is intended to begin and, in some cases, to strengthen, the dialogue between communications providers and Tribal governments. We anticipate that genuine dialogue and common understandings will ultimately lead to improvement of communications services on Tribal lands.

<sup>1</sup> See *Connect America Fund*, WC Docket No. 10-90 *et al.*, Report and Order and Further Notice of Proposed Rulemaking, 26 FCC 17663 at 17868-69, para. 637 (2011) (*USF/ICC Transformation Order*); *pets. for review pending sub nom.* In re: *FCC 11-161*, No. 11-9900 (10th Cir. filed Dec. 18, 2011).

<sup>2</sup> See *id.* In the context of the *USF/ICC Transformation Order*, "Tribal lands" is defined as "any federally recognized Indian tribe's reservation, pueblo or colony, including former reservations in Oklahoma, Alaska Native regions established pursuant to the Alaska Native Claims Settlements [sic] Act (85 Stat. 688), and Indian Allotments, see 47 C.F.R. § 54.400(e), as well as Hawaiian Home Lands—areas held in trust for native Hawaiians by the state of Hawaii, pursuant to the Hawaiian Homes Commission Act, 1920, Act July 9, 1921, 42 Stat. 108, *et seq.*, as amended." *Id.* at para. 125, n.197.

3. Good guidance, by definition, must include assistance on how to undertake an endeavor with an aim towards success. Any attempt at actual and meaningful dialogue must be predicated on the genuineness of the intent on both sides. This engagement cannot be viewed as simply another “check the box” requirement by either party. In many places, we expect that there are good and productive relationships between communications providers and Tribal Nations. To the extent that there might be existing differences, however, the parties should put aside those differences for the purposes of this engagement. This engagement process should not be approached as an adversarial undertaking. Instead, Tribal governments and carriers should take advantage of the engagement to improve communications and foster a greater common understanding of the factors necessary to deploy and sustain services on Tribal lands, as well as an honest dialogue to learn from one another what factors would lead to success in those endeavors. In all cases, a high degree of receptivity and responsiveness is necessary to achieve meaningful dialogue, as well as confidence in the reliability of information exchanged. Candid and sincere dialogue on both sides will minimize the possibility that unreasonable expectations by either party will derail common understandings and genuine solutions.

4. Creating a substantive, meaningful dialogue is an iterative process, one which, in certain regions, is at its earliest stages of development. In a similar sense, the further guidance contained in this Public Notice represents the first step in the Commission’s implementation of the Tribal engagement obligation. We recognize that priorities and plans of individual Tribal governments and individual service providers can vary greatly, as do the existing relationships between Tribal governments and carriers currently serving Tribal lands. Therefore, there is no one size fits all guidance that can be provided that will be universally applicable. As a result, the guidance provided herein is somewhat general in nature at this stage, but we anticipate that our guidance, as well as the development of best practices, will evolve over time based on initial implementation experiences and the feedback of both Tribal governments and communications providers.

5. ONAP, in coordination with the Bureaus, will track and monitor this feedback and will develop further guidance in the form of best practices based on actual experiences.<sup>3</sup> In an effort to further facilitate engagement efforts at this initial stage, ONAP will employ training and industry meeting opportunities, as well as its coordination events with Tribal Nations. These efforts will include, for example, working with national and regional communications industry associations and national and regional inter-Tribal government associations and organizations.<sup>4</sup> ONAP will focus particular efforts -- for example, by identifying commonalities, increasing efficiencies, building upon current working relationships, and engaging all regional stakeholders, as appropriate -- to foster engagement in states and regions in which Tribes and providers are particularly remote and in which Tribes are particularly numerous.<sup>5</sup> ONAP, in coordination with the Bureaus, will continue to serve as a resource for Tribal governments and communications providers and is always available for individually tailored assistance.

---

<sup>3</sup> See *id.* at para. 637, n.1054 (directing ONAP, in coordination with the Bureaus, to develop best practices).

<sup>4</sup> See Letter from the Hon. Mark Begich, United States Senator, State of Alaska; the Hon. Lisa Murkowski, United States Senator, State of Alaska; and the Hon. Don Young, United States Congressman, State of Alaska, to the Hon. Julius Genachowski, Chairman, FCC, dated Feb. 22, 2012 (“[W]e request that you work with the tribal groups, carriers and the State of Alaska to clarify the tribal consultation requirements included in the reform order”). See also Letter of Becky Hultberg, Commissioner, Department of Administration, State of Alaska, to the Hon. Julius Genachowski, Chairman, FCC, dated February 17, 2012.

<sup>5</sup> For example, there are 229 federally recognized Tribes in Alaska, 108 in California, 38 in Oklahoma, 23 in New Mexico, and 21 in Arizona. See Federal Register Notice – Indian Entities Recognized and Eligible to Receive Services from the United States Bureau of Indian Affairs, 75 Fed. Reg. 60,810 (Oct. 1, 2010). See also Supplemental Federal Register Notice – Indian Entities 1 Page Recognized and Eligible to Receive Services from the United State Bureau of Indian Affairs, 75 Fed. Reg. 66,124 (Oct. 27, 2010).

## II. BACKGROUND

6. In the *USF/ICC Transformation Order*, the Commission adopted a Tribal engagement requirement for all eligible telecommunications carriers (ETCs) either currently serving or seeking to serve Tribal lands.<sup>6</sup> The Commission agreed with commenters that engagement between Tribal governments and communications providers is vitally important to the successful deployment of and provision of service on Tribal lands.<sup>7</sup>

7. The Commission therefore required, at a minimum, that ETCs demonstrate on an annual basis that they have meaningfully engaged with Tribal governments in their universal service supported areas.<sup>8</sup> At a minimum, the *USF/ICC Order* stated that such discussions must include: (1) a needs assessment and deployment planning with a focus on Tribal community anchor institutions; (2) feasibility and sustainability planning; (3) marketing services in a culturally sensitive manner; (4) rights of way processes, land use permitting, facilities siting, environmental and cultural preservation review processes; and (5) compliance with Tribal business and licensing requirements.<sup>9</sup> Failure to satisfy the Tribal engagement obligation will subject ETCs to financial consequences, including potential reduction in universal service support should they fail to fulfill their engagement obligations.<sup>10</sup>

8. In requiring Tribal engagement, the Commission did not intend to supplant its own ongoing obligation to consult with Tribes on a government-to-government basis, but instead recognized the important role that all parties play in expediting communications service to Tribal lands throughout the nation, including in Alaska and Hawaii.<sup>11</sup> ETCs will be required to submit to the Commission and appropriate Tribal government officials an annual certification and summary of their compliance with the Tribal government engagement obligation as part of the new Connect America Fund reporting requirements.<sup>12</sup> The Commission defined appropriate Tribal government officials as elected or duly authorized government officials of federally recognized American Indian Tribes and Alaska Native Villages.<sup>13</sup> For Hawaiian Home Lands, this engagement must occur with the State of Hawaii Department of Hawaiian Home Lands and the Office of Hawaiian Affairs.<sup>14</sup> The Commission delegated to ONAP, in coordination with the Bureaus, the authority to develop specific procedures regarding the Tribal

---

<sup>9</sup> *Id.*

<sup>10</sup> See *USF/ICC Transformation Order*, 26 FCC Rcd at 17868-69, para. 637.

<sup>11</sup> *Id.*

<sup>12</sup> *Id.* See also *id.* at para. 575 (“Under this uniform framework, ETCs will provide annual reports and certifications regarding specific aspects of their compliance with public interest obligations to the Commission, USAC [the Universal Service Administrative Company], and the relevant state commission, relevant authority in a U.S. Territory, or Tribal government, as appropriate by April 1 of each year.”) See generally *id.* at paras. 576-606 (articulating specific reporting requirements). See also *Connect America Fund*, WC Docket No. 10-90 *et al.*, Order, 27 FCC Rcd 2142 at 2144-47, paras. 4-14 (2012) (*USF/ICC Clarification Order*) (revising and clarifying certain reporting obligations for recipients of Connect America Fund support).

<sup>13</sup> *USF/ICC Transformation Order*, 26 FCC Rcd at 17869, para. 637, n.1053.

<sup>14</sup> *Id.*

engagement process, as necessary.<sup>15</sup> The Commission also directed ONAP, in coordination with the Bureaus, to develop best practices regarding the Tribal engagement process to help facilitate these discussions.<sup>16</sup>

### III. FURTHER GUIDANCE ON THE TRIBAL GOVERNMENT ENGAGEMENT OBLIGATION

#### A. Overview/General Guidance

9. As stated above, the purpose of this guidance is to ensure the effective exchange of information between Tribal governments and communications providers concerning the deployment and improvement of communications services on Tribal lands throughout the nation, including in Alaska and Hawaii. This exchange of information should foster new opportunities for genuine dialogue that could achieve an alignment of interests and goals. Between certain carriers and Tribal governments, this will be an opportunity for introduction and dialogue in the first instance. In other parts of the country, this will be an opportunity for a new depth of dialogue and more meaningful interaction. An important goal of this guidance is the achievement of a level of engagement between principals on both sides that represents collaborative discussions and actual live conversation.<sup>17</sup> We encourage stakeholders to go beyond merely perfunctory exchanges of basic documents, simplistic sales or marketing presentations, or one-dimensional lists of demands.

10. It is imperative that this dialogue be undertaken at a level within communications providers and Tribal governments that is commensurate with this important engagement requirement. The discourse should be between decision-makers on both sides. While it may be necessary to include administrative staff on both sides to administer and maintain the continuity of relations, this engagement cannot be merely between sales and marketing individuals on one side and administrative staff or advisors on the other. The perspectives on needs, expectations, priorities, and abilities that would formulate meaningful exchange often can come only from those with the requisite authority to make decisions.

11. On the Tribal government side, there are certain actions that should be taken to best prepare for this valuable engagement. It is important for Tribal leaders to recognize and act upon this opportunity to become organized, maintain continuity, and provide for certainty in conveying their communications needs and priorities. The Commission has long recognized the right of sovereign Tribal governments "to set their own communications priorities and goals for the welfare of their membership."<sup>18</sup> This is a critical time for Tribal Nations to update and make comprehensive their communications priorities and goals. Tribal governments should consider all community needs that would be supported by communications services. These might include, but are not limited to, anchor institutions, economic development, education, healthcare, and public safety. Each Tribal Nation has unique elements to its communications needs and priorities, but effectively articulating those needs is a critical first step in addressing them.

12. As Tribal government administrations change and develop, this is an important opportunity to demonstrate, both to communications providers and to the Commission, their continuity in communications priorities and goals. Certain Tribal governments have created their own governmental

---

<sup>15</sup> *Id.* Although our focus here is on providing guidance, the Commission thus will consider the need for further guidance, or to clarify the existing rules regarding Tribal engagement or pursue new rules with specific procedures, if warranted in the future based on actual experiences and outcomes resulting from this guidance.

<sup>16</sup> *Id.* at n.1054.

<sup>17</sup> For example, engagement may occur when necessary by phone or video conference where extreme weather conditions and/or extreme remoteness are present.

<sup>18</sup> Statement of Policy on Establishing a Government-to-Government Relationship with Indian Tribes, 16 FCC Rcd 4078, 4080-81 (2000) (*Tribal Policy Statement*).

offices and commissions to interact with the FCC and communications providers. Others have designated key members of their Tribal Councils to lead their communications prerogatives for their governments, in effect creating communications committees on their Councils. Other Tribes have yet to organize their governmental or administrative systems with respect to communications services. This engagement obligation necessitates a level of organization within the Tribal government that can convey both a high degree of certainty in the communications priorities of the Tribal Nation and maintain the continuity of those priorities to the greatest extent possible in a governmental environment that, by definition, changes over time. Updating Tribal communications priorities and goals, and ensuring the establishment of effective organizational structures concerning communications issues, are important first steps. However, ETCs must begin the Tribal engagement process this year to be able to report on meaningful engagement by July 1, 2013.<sup>19</sup> Therefore, Tribal governments may need to take interim measures in the short term as they consider establishing new or modified communications goals and priorities.

13. Tribal Nations also should immediately begin preparations to receive, record, and process this engagement dialogue and any related correspondence. Specific efforts should be made to chronicle details of engagement dialogue sessions. Recordkeeping should be established for documentation of the initial contact, any follow-up communications, and the resulting annual certification documentation. Records should include, for example, a summary of all verbal interactions as well as copies of all electronic and hard copy communications.<sup>20</sup>

14. Similarly, communications providers should take immediate steps to prepare for and initiate engagement with the Tribal governments whose lands they serve. Certifications articulating the steps taken to comply with the annual Tribal engagement obligation in 2012 are due on July 1, 2013 and each year thereafter.<sup>21</sup> That is, the Tribal engagement obligation must be fulfilled by the end of each calendar year. Communications providers should, for example, take immediate steps to establish a lead and/or a team within their companies and to identify the appropriate Tribal government leaders with whom they will initiate the engagement process. The National Congress of American Indians (NCAI)<sup>22</sup> maintains a routinely updated and comprehensive directory of American Indian Tribal and Alaska Native Village government leaders, addresses, and telephone numbers. The NCAI Tribal directory can be sorted by geographical area and can be found at <http://www.ncai.org/tribal-directory>.<sup>23</sup> Where needed, ONAP also will serve as a resource for communications providers and Tribal governments.

15. In addition, communications providers should retain copies of all communications with Tribal leaders they would need in order to demonstrate compliance with their annual certification requirement. In the event that a Tribal government does not respond to repeated efforts to engage, the provider should document all attempts at engagement and certify to that effect. As with the entire engagement process, reasonableness should prevail. As a general matter, we expect that a provider would not be penalized for a failure to respond on the part of a Tribal Nation, if the provider can demonstrate repeated good faith efforts to meaningfully engage with the Tribal government.

<sup>19</sup> See *Connect America Fund*, WC Docket No. 10-90 *et al.*, Third Order on Reconsideration, FCC 12-52 at para. 10 (rel. May 14, 2012) (*Third Reconsideration Order*) (changing the filing deadline from April 1 to July 1).

<sup>20</sup> For example, all ETCs receiving high-cost are now subject to a 10-year document retention requirement. See *USF/ICC Transformation Order*, 26 FCC Rcd at 17864, para. 620. See also *Third Reconsideration Order*, FCC 12-52 at para. 14.

<sup>21</sup> See *Third Reconsideration Order*, FCC 12-52 at para. 10. See also 47 C.F.R. §§ 54.313, 54.1009..

<sup>22</sup> NCAI is the nation's oldest, largest, and most representative inter-Tribal government and communities organization, representing American Indian Tribes and Alaska Native Villages.

<sup>23</sup> For a listing of all federally recognized American Indian Tribes and Alaska Native Villages, see [www.bia.gov/cs/groups/xofa/documents/document/idc012038.pdf](http://www.bia.gov/cs/groups/xofa/documents/document/idc012038.pdf). ONAP, in coordination with the Bureaus, will endeavor to provide additional resources to Tribal governments and carriers to help facilitate this engagement, including the possibility of using the Commission's website as a repository of information.

## B. Needs Assessment and Deployment Planning

16. Tribal governments play a vital role in identifying and serving the needs and interests of their local communities, often in remote, insular, cyclically impoverished communities with a historic lack of critical infrastructure. Tribal government leaders are intimately acquainted with their members' needs and have valuable insight into how to meet them. "Tribal-centric" business models – those that actively engage the Tribe, its core community institutions, and members in deployment and adoption planning – have a greater chance of establishing sustainable services on Tribal lands.<sup>24</sup> Communications providers also have experience and a valuable perspective on the challenges, economics, and other realities of providing service to remote, low-income, and underserved regions of the country, including certain Tribal lands.

17. The Tribal engagement obligation provides Tribal governments and communications providers alike with a new opportunity – the opportunity to have a genuine conversation about communications needs and deployment planning on Tribal lands. When telephone service was originally deployed, there was no such obligation and, as a result, in many instances, Tribal needs and carrier deployment efforts were not aligned. The Tribal engagement obligation affords both Tribal governments and communications providers the opportunity to move forward with a shared vision. This will only occur, however, if Tribal governments and communications providers alike take advantage of this historic opportunity to improve the communications landscape on Tribal lands.

18. To that end, Tribal governments should come to the table with a serious, well-thought out assessment of the Tribes' communications needs. Issues that Tribal governments should consider include, for example, the Tribe's communications goals, needs, and priorities, as well as what the Tribe intends to do with communications services (e.g., provide connectivity to those living on Tribal lands, encourage economic opportunity). Tribal governments should also assess what core community or anchor institutions are central to deployment, and what in the nature and operations of these institutions is relevant to the need for communications services. In addition, Tribal governments should consider whether there are economic factors and possibly Tribally-driven opportunities that will assist in making the business case for deployment on Tribal lands, as well as opportunities where Tribal governments and communications providers can partner. In analyzing and discussing communications goals, needs, and priorities, Tribal governments should note that recipients of Connect America Fund (CAF) support, including the Mobility Fund, are subject to public interest obligations, as established in the *USF/ICC Transformation Order*.<sup>25</sup>

19. Similarly, communications providers should come to the table ready to articulate their deployment priorities, the process by which they arrived at these priorities, and their initial plans for deployment on Tribal lands. Issues that communications providers should be prepared to discuss include, for example, the services they currently deploy, and what services they intend to deploy, on Tribal lands. Providers should also be prepared to discuss their timelines for the provision of services not currently available on Tribal lands, as well as their priorities in terms of service and the factors that led them to prioritize deployment to particular areas. Communications providers should also identify any opportunities they envision to partner with Tribal governments.

## C. Feasibility and Sustainability Planning

20. Feasibility and sustainability planning for communications services on Tribal lands presents issues of concern for both Tribal governments and communications providers. Tribal governments generally want services rapidly deployed for their members to support the economic, educational, public safety, and health care opportunities that communications services afford. Communications providers

---

<sup>24</sup> See *Improving Communications Services for Native Nations*, CG Docket No. 11-41, Notice of Inquiry, 26 FCC Rcd 2672, 2679-80, para. 12 (2011) (*Native Nations NOI*).

<sup>25</sup> See *USF/ICC Transformation Order*, 26 FCC Rcd at 17691-17709, paras. 74-114.

generally want business models that will be practical in terms of build out, and viable in terms of revenue flow and quality of service. While some commonalities likely exist, we believe there are many differences from one provider to another and from one Tribal government to another. The Tribal engagement obligation affords both parties the opportunity to share specific perspectives and information and to begin charting a path forward to address feasibility and sustainability in coordination with one another.

21. Tribal lands nationwide face some of the greatest challenges to the feasibility and sustainability of a 21<sup>st</sup> century communications infrastructure, including rugged and remote terrain and often endemic levels of poverty. Therefore, communications build out plans based purely on population density or proximity to other robust networks can face major cost benefit analysis challenges. Tribal government leaders, who are largely responsible for managing a wide array of government services and economic opportunities for their communities, are uniquely situated to advise communications providers of the specific challenges associated with deploying and sustaining a communications network on their lands. The Tribal engagement obligation will facilitate discussion between Tribal government leaders and communications providers, affording providers an important opportunity to draw upon the knowledge gained to inform and coordinate their feasibility and sustainability planning.

22. Tribal Nations should be prepared to discuss any additional resources they may bring to bear in feasibility and sustainability planning for communications services, because many federal grant or loan programs provide direct access to, or particular standing for, Tribal Nations and their entities. That is, there are federal government programs that support infrastructure deployment and support the economic, health, safety, and welfare missions in Native communities—the very same priorities for the deployment of robust communications networks on Tribal lands. For example, Tribes may be considering business ventures that would benefit from coordination on communications planning at the outset. Together, providers and Tribal Nations have the opportunity to discuss how to coordinate in planning, providing, and meeting the expenses for communications services on Tribal lands.

23. When addressing the issues of sustainability on Tribal lands, one must also calibrate expectations and develop an awareness of the unique nature of Tribal communities. Issues such as cyclical poverty, remoteness, and deployment priorities all inform the potential sustainability and ultimate profitability of a particular communications model on Tribal lands. That is, it can take a longer period of time to develop a sustainable enterprise on many Tribal lands. Increased coordination between Tribal governments and communications providers on specific elements of feasibility will heighten the chances of ultimate sustainability for communications business models on Tribal lands.

#### **D. Marketing Services in a Culturally Sensitive Manner**

24. As noted above, for the purposes of the USF/ICC proceeding and, therefore, the Tribal engagement obligation, Tribal lands are comprised of the lands of the approximately 566 federally recognized American Indian Tribes and Alaska Native Villages, as well as Hawaiian Home Lands.<sup>26</sup> Tribal lands represent a rich and diverse array of cultural heritage, history, practices, and pride. Outside the context of Tribally owned and operated providers, however, seldom have these cultural factors been fully considered in the marketing and deployment of communications services on Tribal lands. The Tribal engagement obligation provides Tribal governments and communications providers with the opportunity to discuss and explore ways in which they can coordinate or partner to ensure that services are marketed in a manner that will relate directly to the community, resonate with consumers, and stimulate increased adoption of services on Tribal lands.

25. Issues that Tribal governments and communications providers may wish to discuss include the tailoring of service offerings to the community through, for example, the feasibility of a local presence in the community. For example, locating a retail presence within a Tribal community and employing

---

<sup>26</sup> See *supra* n.2.

members of that community may increase awareness of and sensitivity to local cultural and communications needs. Providers and Tribal governments also may wish to discuss whether developing materials, separately or jointly, specific to the Tribal community would be beneficial to either the provider or consumers on Tribal lands. In addition, providers and Tribal governments also may wish to discuss what other elements of their respective organizations may need to be engaged. For Tribal governments, this may mean administrative planning, community service, and other governmental offices. For providers, this may mean customer service, technical assistance, and commercial business divisions. Through a heightened mutual understanding of one another's needs, we anticipate that Tribal governments and communications providers may discover opportunities for working together that will yield benefits to all. Studies indicate that these efforts present genuine opportunities for success, because where Native Nations and their community members have access to broadband, their rates of Internet use are on par with, if not higher than, national averages.<sup>27</sup>

#### **E. Rights of Way and Other Permitting and Review Processes**

26. There are numerous regulatory processes with which service providers must comply in order to provide communications services on Tribal lands, including rights of way, land use permitting, facilities siting, and environmental and cultural review processes.<sup>28</sup> Certain of these processes involve other federal agencies, such as the Department of Interior's Bureau of Indian Affairs (BIA), and failure to comply with these processes may result in a finding of trespass. Given the widely varying circumstances on different Tribal lands, a one size fits all approach is not appropriate here. Instead, in the context of the Tribal engagement obligation, the common goal for Tribal governments and communications providers should be one of greater mutual understanding about the relevant rights of way and other permitting and review processes on Tribal lands and a plan for informing communications providers of procedures in a helpful and instructive manner, designed to bring companies into compliance, where applicable.

27. To that end, Tribal governments and communications providers should come to the table prepared to discuss the relevant rights of way and other permitting and review processes, as well as the challenges associated with these processes. For example, with respect to the BIA's appraisal process for rights of way, dialogue that prioritizes early notification might expedite Tribal governments' consultations with BIA and consent.<sup>29</sup> Tribal governments should have a comprehensive list of all processes with which communications providers serving their Tribal lands are required to comply, such as rights of way, land use permitting, facilities siting, and environmental and cultural review processes. Communications providers should have documentation of any and all processes with which they currently comply. All of this information will provide the foundation for a substantive discussion of all requirements and steps for moving forward together.

#### **F. Compliance with Tribal Business and Licensing Requirements**

28. As sovereign institutions, Tribal governments have the authority to impose Tribal business and licensing requirements on all entities doing business on their lands. While the type and form of requirements may vary greatly from one Tribal land to another, Tribal business and licensing requirements include business practice licenses that Tribal and non-Tribal business entities, whether located on or off Tribal lands, must obtain upon application to the relevant Tribal government office or division to conduct any business or trade, or deliver any goods or services, to the Tribe, Tribal members, or Tribal lands. The form of these licenses vary greatly, including certificates of public convenience and necessity, Tribal business licenses, master licenses, and other related forms of Tribal government

<sup>28</sup> See *USF/ICC Transformation Order*, 26 FCC Rcd at 17868-69, para. 637.

<sup>29</sup> See generally 25 C.F.R. Part 169 – Rights-of-Way Over Indian Lands.

## Federal Communications Commission

DA 12-1165

licensure.<sup>30</sup>

29. As part of the Tribal engagement obligation, Tribal governments and communications providers should come to the table prepared to discuss in detail the relevant Tribal business and licensing requirements. Tribal governments should have a comprehensive list of any such requirements applicable to the provision of communications services. They should be prepared to provide an explanation of precisely what all such requirements entail, including specific application procedures and timeframes, as well as the governmental offices involved in the licensing process. Communications providers should be prepared to provide evidence of compliance with any Tribal business practice licenses with which they currently comply for that Tribe. Consistent with the discussion above regarding rights of way and other permitting and review processes, the common goal here should be one of greater mutual understanding about the relevant Tribal business licensing requirements and a plan for bringing companies into compliance, where applicable.

#### IV. CONCLUSION

30. In conclusion, the Tribal engagement obligation represents an opportunity for Tribal governments and communications providers to coordinate on many issues critical to the deployment and adoption of communications technologies on Tribal lands. As discussed in the introduction, this guidance represents the first step in an iterative process. That is, this guidance will evolve over time based on initial experiences and feedback from Tribal governments and communications providers. In an effort to identify commonalities, increase efficiencies, and build upon current working relationships, ONAP will engage all regional stakeholders, as appropriate, and will respond to needs articulated by communications providers and Tribal governments.

## Informational Bulletin

### Federal Tribal Lifeline and Tribal Linkup Support Programs

Eligible residents of Tribal lands may be able to save money on their local telephone service through Tribal Lifeline and Tribal Link Up support programs. These programs are established by the Federal Communications Commission (FCC) and are available through telephone companies like Frontier. Under the Tribal Lifeline program, a qualified resident receives a reduction of up to \$34.25 per month of the cost for a single local telephone service connection to the household. Under the Tribal Link Up program, a qualified resident receives a 100 percent reduction, up to \$100, of the customary charge to install a single local telephone service connection at the customer's principal place of residence. To qualify for these programs, an individual must:

1. Be a resident of a federally recognized tribal land
2. Receive assistance from one of the following programs:
  - Bureau of Indian Affairs General Assistance
  - Tribally Administered Temporary Assistance for Needy Families (TTANF)
  - Tribal Head Start Programs (income eligible)
  - Food Distribution Program on Indian Reservations (FDPIR)
  - Medicaid
  - Supplemental Security Income (SSI)
  - Supplemental Nutrition Assistance Program (Food Stamps or SNAP)
  - Temporary Assistance for Needy Families (TNAF)
  - Federal Public Housing Assistance (Section 8)
  - Low-Income Home Energy Assistance Program (LIHEAP)
  - National School Lunch Program's Free Lunch Program
  - Kids Care

**or**

3. Income must not exceed approximately 135% of the federally established poverty levels set forth for the number of persons in the applicant's household, as updated.

Tribal Lifeline and Tribal Link Up are government assistance programs. Only eligible customers may enroll in the programs, and documentation is required for enrollment. Program benefits are limited to one per household and are non-transferable.

To enroll in Tribal Lifeline or Tribal Link Up, residents may contact Frontier at 1-800-921-8101 and ask about Tribal Lifeline or Tribal Link Up.

Line 1010 – Voice Services Rate Comparability Compliance

### Voice Services Rate Comparability Compliance

The price of Frontier's fixed voice service for each exchange included within this Frontier study area, as listed on Line 703c of this Form 481 report, is below the FCC's reasonable comparability benchmark for voice services of \$47.48 based on the results of the 2015 Urban Rate Survey for fixed Voice and Broadband services released by the Wireline Competition Bureau on April 16, 2015 (WC Docket No. 10-90).

**EXCHANGE TELEPHONE SERVICE**

CONDITIONS

Access Line Service

1. Two and Eight Party Services were frozen as of March 1, 1984 and are limited to existing customers in existing locations.
2. Access Line Service is furnished with rotary service as the standard signaling arrangement. Rates for Touch Tone Calling Service are shown in Section 20.
3. The rates for access line service do not include a telephone set with the line.
4. Service Connection Charges for Access Lines are located in Section 15.
5. The Company reserves the right to serve a customer via Rural Radio transmission when physical cable is not feasible.
6. Rural Radio is one party service, which is only available at the Company's option to new customers or existing customers whose facilities are in need of major repair.
7. If Rural Radio is used, the customer will receive Local service from the exchange from which the dial tone is transmitted even though they may be physically located in another exchange. Therefore, calls within the customer's physical exchange will be subject to normal toll charges.
8. The utility shall provide Lifeline telephone service to any applicant that self-certifies that they are currently eligible (though it is not necessary that they be participating) for public assistance under one of the following programs:

Medicaid;  
Supplemental Nutrition Assistance Program;  
Supplemental Security Income;  
Federal Public Housing Assistance (Section 8);  
Low-Income Home Energy Assistance Program'  
National School Lunch Program's free lunch program;  
Temporary Assistance to Needy Families (TANF)

(C)  
|  
(C)

"Applicant," – means the eligible telecommunications customer who owns and resides in a residential property or rents and resides in a residential property.

Self-certification forms will be available at the Utility.

---

**EXCHANGE TELEPHONE SERVICE**

CONDITIONS

Access Line Service (continued)

8. Lifeline telephone service will be subject to the following restrictions:

Applicants must be head of household or person in whose name the property or rental agreement resides.

Service will only be provided to the applicant's principal residence.

Applicants will only be allowed to subscribe to a single residential access line.

Income-Based Criteria – The ETCs shall provide lifeline telephone service to any applicant who certifies via supporting documentation, under the penalty of perjury, his household income to be at or below 135 percent of the then applicable Federal Poverty Guidelines.

1. Income-based eligibility is based on family size and actual income, therefore, the Lifeline customers must certify, under the penalty or perjury, the number of individuals residing in their household.
2. A Lifeline customer must certify, under the penalty of perjury, that the documentation presented accurately represents the applicant's annual household income. The following documents, or any combination of these documents, are acceptable for Lifeline certification;

Prior year's state, federal, or tribal tax return;  
Current year-to-date earnings statement from an employer or three consecutive months of paycheck stubs;  
Social Security statement of benefits;  
Veterans Administration statement of benefits;  
Retirement/pension statement of benefits;  
Unemployment/Worker's Compensation statement of benefits;  
Federal or tribal notice letter of participation in Bureau of Indian Affairs General Assistance; or  
Divorce decree, or child support wage assignment statement.

Lifeline customers are charged the Residence access line rate plus the Federal Subscriber Line Charge. The State Lifeline Discount and Federal Lifeline Discount are applied to the Lifeline customer's Local bill.

Lifeline subscribers may add optional toll blocking functionality to their line at no charge.

Service charges will be waived for changing basic local exchange service to Lifeline Service.

For additional conditions for application of this service see:

- Deposits in Section 3.
- Service charges in Section 15.
- Suspension of Service in Section 16.

(L) Material relocated from Sheet No. 2.1.

EXCHANGE TELEPHONE SERVICE

CONDITIONS

Access Line Service (continued)

9. Enhanced Lifeline Service for Tribal Lands

Residential customers who reside on federally recognized tribal lands are eligible to receive additional enhanced federal Lifeline support in order to reduce the price for basic local telephone service. An individual living on tribal lands shall qualify for an additional enhanced federal Lifeline credit of up to \$25.00 per month if the individual participates in any state or federal programs identified in Section 4, Sheet 5, or in one of the following assistance programs: (T)

- Bureau of Indian Affairs General Assistance
- Tribally Administered Temporary Assistance for Needy Families
- Head Start (only those households meeting its income qualifying standard)
- Food Distribution Program on Indian Reservations (FDPIR)

If a resident of a federally recognized tribal land satisfies the state's Lifeline eligibility criteria as defined in Section 4, Sheet 2, the resident will receive the state support as well as the additional enhanced federal support.

The additional enhanced federal credit will be available to Lifeline customers who reside on tribal lands in the following exchanges:

<u>Tribe/Reservation</u>	<u>Exchange</u>
Navajo	Halchita Montezuma Creek Monument Valley
