Whatever happened to government by the people for the people? By the people for the corporations I'd say. We are not a democracy anymore, we are an oligarchy. Stop this bullshit you stupid mother fuckers. We American citizens pay taxes to better us as a nation, and all you do is piss money away, and give it to corporations. It's time for term limits and the stopping of lobbying. The person with the biggest check gets stuff passed, and our government is pathetically sucking giant corporate dick. Verizon, Comcast, and Time Warner are not the bulk of America. Listen to us FOR ONCE!
