June 20<sup>th</sup> 2015

The Honorable Tom Wheeler  
Chairman  
Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

Re: GN Docket No. 13-5, Technology Transitions; GN Docket No. 12-353, AT&T Petition to Launch a Proceeding Concerning the TDM-to-IP Transition; WC Docket No. 05-25, Special Access for Price Cap Local Exchange Carriers.

Dear Chairman Wheeler:

I am the IT manager and head engineer at Hallco Industries, Inc. Our company manufactures Live Floor conveyor systems that are installed in semi-trailers all over the USA and now in many other countries in the world. We have been building and selling these conveyors for over 40 years out of Tillamook Oregon. Tillamook is a rural county with limited access to the dependable, high speed broadband market.

We have chosen a competitive carrier for our voice and data services. They provide the individualized services and customer support we need. The internet access that they provide us is without peer here in Tillamook for reliability and very low latency that is required for VOIP telephone service.

We commend the FCC's efforts to provide customers with more choices for broadband service. As technology transitions and more services move to IP based solutions, we encourage you to protect the wholesale access market. This will ensure that our ability to choose a competitive provider, based on factors including customer service and price, will remain intact.

By keeping the marketplace open for more competition, the FCC will help ensure that businesses like ours have the power to choose the broadband provider that is the best fit for our needs and growth.

Sincerely,

A handwritten signature in black ink, appearing to read "Tim Berthelsen", written in a cursive style.

Tim Berthelsen  
Hallco Industries, Inc.
