Chairman Wheeler:

I write to you as an entrepreneurial small business owner who values competition in the local telecommunications marketplace. Our company, Cherry Tree Dental, LLC has grown our dental holding company from one local office in Madison, WI to an established and well-respected firm with well over 12 locations throughout the State of Wisconsin.

Simply put, we rely on our phone and Internet service to be available to our patients. Without reliable access our business would not survive. Regularly, we review our contract and choose the provider that offers not only the best rate, but also the most reliable service. For over 6 years, we have chosen TDS to provide our services. They are a competitive provider offering the individualized services and customer support our company needs.

We commend the FCC for your efforts to provide customers with more choice when it comes to selecting a partner who provides high-speed Internet and phone service. As technology continues to evolve, and more services become Internet Protocol or IP-based; having access to more choice will be critical to our future business success.

CHERRY TREE DENTAL
Care. Commitment. Community.

At Cherry Tree Dental, LLC, we encourage you to continue to protect and advance local telecommunications competition by preserving the wholesale access market. This will ensure we continue to have a choice when it comes to our communications provider.

Sincerely,

Jack Young
Owner and Principal
