Dear Chairman Wheeler:

**Please let me introduce myself. I am Tom Vodak, Operations/IT Manager at Magna Publications in Madison, Wisconsin. Founded in 1972, Magna Publications serves the higher education community around the world by producing online seminars, publications, conferences and other products that support faculty and staff development.**

We rely heavily on the high quality phone and Internet services TDS Metrocom (TDS) offers our Company to enable us to provide first class treatment to our own customers. Without reliable access to the TDS products, our business would not survive. Regularly, we review our contracts and choose the provider that offers not only a competitive rate, but also the most reliable, high quality service.

For over 5 years, we have chosen TDS to provide services that meet and exceed our needs. They are a competitive provider offering the individualized services and customer support our company desires.

**We strongly urge the FCC to continue to render decisions that provide customers with more choice when it comes to selecting a Telecommunications carrier who provides high-speed Internet and phone services.**

As technology continues to evolve, and more services become IP-based, having access to more choices including with companies like TDS will be critical to our business' success.

Sincerely,

Tom Vodak  
Magna Publications
