Washington, DC 20554

Re: GN Docket No. 13-5, Technology Transitions; GN Docket No. 12-353, AT&T Petition to Launch a Proceeding Concerning the TDM-to-IP Transition; WC Docket No. 05-25, Special Access for Price Cap Local Exchange Carriers.

Dear Chairman Wheeler:

I am an owner of the Bechard Group, Inc. Our company has been in the commercial real estate marketplace for 35 years. Our goal is to provide our customers with a very high level of service in the Fox Cities, located on the eastside of Wisconsin.

We rely heavily on the high quality phone and Internet services TDS Metrocom (TDS) offers our Company to enable us to provide first class treatment to our own customers. Without reliable access to the TDS products, our business would not survive. Real estate is a very competitive business, so we regularly review our contracts and choose the provider that offers not only a competitive rate, but also the most reliable, high quality service.

For years, we have chosen TDS to provide services that meet and exceed our needs. . They are a competitive provider offering the individualized services and customer support our company desires.

We strongly urge the FCC to continue to render decisions that provide customers with more choice when it comes to selecting a Telecommunications carrier who provides high-speed Internet and phone services.

As technology continues to evolve, and more services become IP-based, having access to more choices including TDS, will be critical to our business' success.

Sincerely,

Larry E. Lind
Vice President
