Re: **Windy City Cellular, LLC**
FCC Form 481 – CONFIDENTIAL FINANCIAL INFORMATION – SUBJECT TO PROTECTIVE ORDER IN WC DOCKET NOS. 10-90, 07-135, 05-337, 03-109, 14-58, CC DOCKET NOs. 01-92, 96-45, GN Docket No. 09-51, WT DOCKET NO. 10-208

Dear Ms. Dortch:

Monica Desai of Squire Patton Boggs (US) LLP, hereby files FCC Form 481 on behalf of Windy City Cellular, LLC. Pursuant to the Protective Orders adopted in the above-referenced proceeding, please find enclosed one copy of the confidential version of this filing, and two copies of the public version of this filing in redacted form with an accompanying copy of this cover letter.

Each page of the confidential version bears the legend "CONFIDENTIAL FINANCIAL INFORMATION – SUBJECT TO PROTECTIVE ORDER IN WC DOCKET NOS. 10-90, 07-135, 05-337, 03-109, 14-58, CC DOCKET NOs. 01-92, 96-45, GN Docket No. 09-51, WT DOCKET NO. 10-208, BEFORE THE FEDERAL COMMUNICATIONS COMMISSION."

The copies of the public version and the accompanying cover letter bear the legend "REDACTED – FOR PUBLIC INSPECTION."

Two copies of the confidential version of this filing also are being directed to Mr. Charles Tyler of the Telecommunications Access Policy Division – Wireline Competition Bureau, as required by the Protective Order.

44 Offices in 21 Countries

Squire Patton Boggs (US) LLP is part of the international legal practice Squire Patton Boggs, which operates worldwide through a number of separate legal entities.

Please visit squirepattonboggs.com for more information.

Should you have any questions with respect to the filing, please contact the undersigned.

Respectfully submitted,

Monica S. Desai

Windy City Cellular, LLC (WCC) follows applicable federal and state service quality and consumer protection rules. They comply with quality of service requirements including monitoring and reporting service quality metrics where required. WCC has implemented numerous consumer protection measures to protect customer information. For example, WCC implemented Customer Proprietary Network Information (CPNI) policies and procedures that are consistent with the FCC's regulations. Employees are required to complete CPNI training and in addition, employees who have access to CPNI data receive additional guidance through written procedures regarding customer authentication. Annually, all employees are required to review WCC's Business Code of Conduct which includes information and requirements on protecting sensitive customer information from improper use and disclosure. WCC data privacy and security policies are reinforced through periodic training required of all employees. Additional consumer protection measures include WCCs' use of a third-party verifier to prevent unauthorized presubscribed interexchange carrier (PIC) changes ("Slamming") and the elimination of billing and collection arrangements that could have potentially allowed unauthorized third-party charges to be added to customer's bills.

Line 610 – Functionality in Emergency Situations

Section 54.202(a)(2) of the Commission's Rules requires that each eligible telecommunications carrier ("ETC") must "[d]emonstrate its ability to remain functional in emergency situations, including a demonstration that it has a reasonable amount of back-up power to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations."

Section 54.313(a)(6) requires ETCs to certify that they are "able to function in emergency situations as set forth in §54.202(a)(2)"in connection with their provision of voice and broadband services.

Adak Eagle Enterprises, LLC dba Adak Telephone Utility (AEE) and its sub subsidiary Windy City Cellular, LLC (WCC) have deployed the services that provide sufficient power generators to ensure functionality without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations.

AEE and WCC have geographically located its switching infrastructure. All facilities are equipped with both AC and DC battery backup as well as generators. All critical equipment is also supplied with 2 separate power sources (or primary and redundant power feeds).

AEE and WCC maintain multiple paths to reach our network. This is setup by using multiple IP transit for all IP connectivity. Once the origination traffic reaches the AEE and or WCC network all elements are setup with the same N+1 configuration. The configuration allows each element a primary and redundant path to terminate the traffic without service interruption. In the event the main element fails or that element reaches maximum capacity AEE and WCC have designed the network to advance the traffic to 1 of 3 other elements in the same N+1 configuration that is listed above. The switching infrastructure will advance to the next termination carrier in route in the event of a failure on any termination carrier's route.
