Dear Chairman Wheeler:

My name is Alan Long, Managing Member of Baldwin CPAs. Our firm provides accounting services to a wide variety of businesses and industries, with concentrations in the industries of construction contractors, financial institutions, governmental, not for profit and nursing homes.

We recently became aware of the IP Transition that is currently underway. As a business that has opted to work with an independent broadband service provider, we benefit from the availability of special access and last-mile services that competitors use to provide service.

As an organization, we are committed to helping each of our clients succeed and are dedicated to strategies that enhance their well-being and success and wish to work with companies that maintain that same ethos, such as our current broadband service provider.

It is our hope that the FCC will work to avoid any reduction in competition during the tech transition process by ensuring equivalent access to broadband lines are made available to competitive providers like ours.

Sincerely,

  
Alan Long  
Managing Member, Baldwin CPAs
