Acoma, NM 87034

Honorable Governor Vallo, Sr.,

CenturyLink values its relationship with the Pueblo of Acoma and the opportunity to provide services that meet the needs of CenturyLink's customers located on Tribal lands. CenturyLink is striving to maintain a positive relationship with members of the Acoma Pueblo through ongoing communications and, as appropriate, periodic meetings.

In late 2011, the Federal Communications Commission ("FCC") initiated steps to reform and modernize the federal universal service support system to ensure that robust, affordable voice and broadband service are available to Americans throughout the nation including those residing on Tribal lands.¹ In accord with the FCC's actions, late last year CenturyLink requested a meeting with representatives of your Tribal Government/Council to discuss the planning and potential deployment of services on Tribal lands as well as other areas of interest specific to conducting business on your Tribal lands. The FCC has advised that the following topics be discussed: (1) deployment planning with a focus on Tribal community anchor institutions; (2) feasibility and sustainability planning; (3) marketing services on Tribal lands; (4) rights-of-way processes, land use permitting, facilities siting, environmental and cultural preservation review process; and (5) Tribal business and licensing requirements.

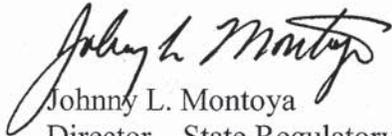

In furthering our goal of strong cooperative relationships with our Tribal customers, and the FCC's goal of comprehensive engagement with Tribal authorities regarding telecommunications services, CenturyLink would like to once again extend an opportunity to meet with the Pueblo of Acoma at your convenience.

Governor Richard Mermejo
Pueblo of Picuris
P.O. Box 127
Penasco, NM 87553

Honorable Governor Mermejo,

CenturyLink values its relationship with the Pueblo of Picuris and the opportunity to provide services that meet the needs of CenturyLink's customers located on Tribal lands. CenturyLink is striving to maintain a positive relationship with members of the Picuris Pueblo through ongoing communications and, as appropriate, periodic meetings.

In late 2011, the Federal Communications Commission ("FCC") initiated steps to reform and modernize the federal universal service support system to ensure that robust, affordable voice and broadband service are available to Americans throughout the nation including those residing on Tribal lands.¹ In accord with the FCC's actions, late last year CenturyLink requested a meeting with representatives of your Tribal Government/Council to discuss the planning and potential deployment of services on Tribal lands as well as other areas of interest specific to conducting business on your Tribal lands. The FCC has advised that the following topics be discussed: (1) deployment planning with a focus on Tribal community anchor institutions; (2) feasibility and sustainability planning; (3) marketing services on Tribal lands; (4) rights-of-way processes, land use permitting, facilities siting, environmental and cultural preservation review process; and (5) Tribal business and licensing requirements.

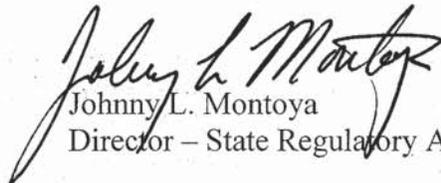

In furthering our goal of strong cooperative relationships with our Tribal customers, and the FCC's goal of comprehensive engagement with Tribal authorities regarding telecommunications services, CenturyLink would like to once again extend an opportunity to meet with the Pueblo of Picuris at your convenience.

For your convenience, I am attaching a reply form and envelope to facilitate the return of your response. The reply provides the opportunity for you to identify the Tribal representatives that would attend the meeting as well as identify issues of interest to you regarding CenturyLink and the services we provide. Please respond at your earliest convenience so that we can set a meeting date. My office will be pleased to coordinate the scheduling of our face-to-face meeting and work to identify additional CenturyLink personnel as needed to address your specific issues.
