Why is it necessary to remove landlines in Ohio? There are a great number of areas where people don't have cell phones or internet due to the terrain. Even if they are able to use cell phones in their home, the reception is not good and calls get dropped.

This becomes a safety issue first and foremost.

Then it comes down to following the money. Who will benefit from this forced change to Ohioans?

Leave well enough alone and let those of us who choose to keep their landlines and keep government out of something that should not be their concern.
