Washington, DC 20554

Re: GN Docket No. 13-5, Technology Transitions; GN Docket No. 12-353, AT&T Petition to Launch a Proceeding Concerning the TDM-to-IP Transition; WC Docket No. 05-25, Special Access for Price Cap Local Exchange Carriers.

Dear Chairman Wheeler:

I am the executive assistant to Dolphin Real Estate LLC in Newport, OR. We are a property management and real estate sales firm.

We have chosen a competitive carrier for our voice and data services. They provide the individualized services and customer support we need. We were previously with a national broadband service provider and received mediocre customer service. Obviously not happy with our service we looked into other providers i.e. Coast Com. There is absolutely a need for competitive broadband providers.

We commend the FCC's efforts to provide customers with more choices for broadband service. As technology transitions and more services move to IP based solutions, we encourage you to protect the wholesale access market. This will ensure that our ability to choose a competitive provider, based on factors including customer service and price, will remain intact.

By keeping the marketplace open for more competition, the FCC will help ensure that businesses like ours have the power to choose the broadband provider that is the best fit for our needs and growth.

Sincerely,

Loren Joling
Dolphin Real Estate LLC
