

June 26, 2015

The Honorable Tom Wheeler
Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Re: GN Docket No. 13-5, Technology Transitions; GN Docket No. 12-353, AT&T Petition to Launch a Proceeding Concerning the TDM-to-IP Transition; WC Docket No. 05-25, Special Access for Price Cap Local Exchange Carriers.

Dear Chairman Wheeler:

My name is Erik Orton and I am the President of Commstructure Consulting, LLC. Our company is a Technical Consulting Services Company based in Oregon City, Oregon and we specialize in Communications Outside Plant (OSP) Infrastructure Design & Project Management. From Fiber Optic Metro Area Backbone Networks to Rural Broadband Connectivity, Commstructure provides a resource to assist Service Providers, Transport Providers and Agencies with successful planning, design and implementation for connectivity of high bandwidth communications services.

We chose competitive carriers for all of our voice and data services whenever and wherever possible and our preference is CLEC's over ILEC's as they provide the individualized services and customer support we need. We utilize Fiber Optic Broadband connectivity not only for our business voice and data needs, but our residential and vacation homes too for working remotely. CLEC's provide the individualized services and customer support we need.

We commend the FCC's efforts to provide customers with more choices for broadband service. As technology transitions and more services move to IP based solutions, we encourage you to protect the wholesale access market. This will ensure that our ability to choose a competitive provider, based on factors including customer service and price, will remain intact.

By keeping the marketplace open for more competition, the FCC will help ensure that businesses like ours have the power to choose the broadband provider that is the best fit for our needs and growth.

Sincerely,

Erik Orton - President
Commstructure Consulting, LLC
