Re: GN Docket No. 13-5, Technology Transitions; GN Docket No. 12-353, AT&T Petition to Launch a Proceeding Concerning the TDM-to-IP Transition; WC Docket No. 05-25, Special Access for Price Cap Local Exchange Carriers.

Dear Chairman Wheeler:

I am Board Chairman and President of Neighbors For Kids, an Oregon 501-C3 non-profit corporation located in Depoe Bay, OR. Our good non-profit provides after-school care and education for kids in our community grades K-12.

We have chosen a competitive carrier for our voice and data services. They provide the individualized services and customer support we need. Our local provider has select knowledge of our business and our needs that make the service they render particularly valuable and effective.

We commend the FCC's efforts to provide customers with more choices for broadband service. As technology transitions and more services move to IP based solutions, we encourage you to protect the wholesale access market. This will ensure that our ability to choose a competitive provider, based on factors including customer service and price, will remain intact.

By keeping the marketplace open for more competition, the FCC will help ensure that businesses like ours have the power to choose the broadband provider that is the best fit for our needs and growth.

Sincerely,  
Neighbors For Kids,

  
Bob Houston  
Board Chairman and President
