5 Reasons To Get Midcontinent Phone

Think your cell phone can do it all? You'll have to rethink that after reading this...

1. 911 service can trace a home phone faster than a cell phone. And smaller children may have trouble operating your cell phone.
2. Midcontinent Phone never needs charging, so you'll never be without phone access because you forgot to plug it in.
3. Midcontinent Phone is always there, so even if all the mobile phone users are out of the house, there's still a phone available for important messages.
4. Adding cell phones to your plan to keep at the house gets expensive. Midcontinent Phone? Just plug in and talk.
5. If you have a home security system, you need to keep a secure landline. It can also be valuable for those who work from home, or who live in rural areas with spotty cell coverage.
