ATT has been fine over 20 million dollars for the exact same thing that they have been doing to me for over 3 years. ATT owes me money for overages that were unwarranted and unauthorized and charging me for 6 lines when I only had 4. I have been complaining, disputing and have involved the FCC as well as PUC!!! The FCC has fined ATT for the very things that ATT has done and continues to do. How do I get my share of these monies that I am due and have been instrumental in providing documented evidence that warrants these fines. The problem is ATT continues to do the very thing they are paying fines for, ATT also continues to refuse to let us port our numbers. Assistance Please!!!
