The FCC should NOT let At&t buy Direct TV as this will be BAD for the general public. At&t will take advantage of the customers by driving prices up and the monopoly this will create will leave customers with no choice in some environments. At&t is a very unethical company and will lie to anyone including the FCC or and other regulatory agency or department of any government for a \$ dollar. This company and the upper management are not trustworthy and are wicked. This company IS NOT A GOOD CORPORATE CITIZEN!!!
Let the customer beware.
FCC commissioners please stop this take over.
