I am NOT in favor of removing land lines. We do not have cable and our internet service comes through our landline. Until you have a complete infrastructure in place I can't imagine why you would even entertain this idea. 911 is another issue. There are many places within our house where we have no cell service. Please, as with everything, you must consider ALL of us. Rural areas tend to be overlooked in discussions. Thank you for the opportunity to express my opinion.
