Functionality in Emergency Situations

In 7 of our village locations (Point Hope, Point Lay, Wainwright, Atqasuk, Nuiqsut, Kaktovik and Anaktuvuk Pass) we have fully redundant Redcom local exchange switches. The central offices that these switches are installed in are equipped with back up batteries designed to support an 8 hour power disruption. In addition, each location has a standby generator that will come on line automatically in the event of the loss of commercial power. These generators are equipped with external fuel tanks that will provide for 4 or 5 days of unattended operation. We have village reps in these villages that can check the site during an emergency and have fuel delivered if necessary.

In our two largest exchanges, Barrow and Deadhorse we have fully redundant DMS 10 local exchange switches. The central offices these switches are installed in are equipped with back up batteries to support an 8 hour power disruption. In addition, each location has a standby generator that will come on line automatically in the event of loss of commercial power. These generators are equipped with external fuel tanks that will provide for 4 or 5 days of unattended operation. It addition these locations are manned 7 days a week for emergency response.

In both Barrow and Deadhorse we have battery back at all remote locations and any locations without permanent standby generators are supported by portable generators.

In all locations we work with the two long distance carriers to reroute traffic as required to recover from network outages or traffic spikes. We have redundant routes to both major carriers.

Program Year 2016
PROGRESS REPORT ON SERVICE QUALITY IMPROVEMENT PLAN

PREAMBLE

This document is an integral part of the Arctic Slope Telephone Association Cooperative, Inc.'s (ASTAC) Program Year 2016 Annual Report, as attached to Form 481. It is in compliance with §54.313(a)(1) adopted in the FCC's USF/ICC Transformation Order (11-161) and incorporates all further clarifications identified in subsequent Reconsideration Orders, as applicable, that were in effect at the time the Annual Report was due by Rule, to the requisite regulatory authorities.

Arctic Slope Telephone Association Cooperative, Inc. advises that the environment in which ASTAC operates is dynamic, not static. As a result, certain network targets identified in its initial 5 Year Network Improvement Plan filed in 2014, may be modified in response to regulatory decisions that have been subsequently adopted, and as their implication upon ASTAC's financial viability in providing the required services and service level quality became known.

Modifications to the Network Improvement Plan may also have been taken due to changes in technology (vendor)-driven support, weather, or other emergency related contingencies.

Targets not met or changed since the initial 5 Year Network Improvement Plan filing are identified and reasons provided for those changes.

UNIVERSAL SERVICE SUPPORT RECEIVED IN 2015

Per the Universal Service Administrative Company (USAC), as available for the period up to this filing, Arctic Slope Telephone Association Cooperative, Inc. received a total of [redacted] (as of 06/08/15) in USF support funds. The breakdown of the funding to the point of filing is:

- [redacted] High Cost Loop Support
- Local Switching Support
- Connect America Fund-Intercarrier Compensation Support
- Interstate Common Line Support
- Safety Net Additive

Universal Service Support funds are used to: 1) maintain, upgrade, and improve ASTAC's network and, 2) cover operating expenses and debt commitments as necessary to permit it to offer a high level of service for both voice and broadband within the authorized serving area.

USF support will continue to be included in ASTAC's current revenue accounts and forward-looking projections. Revenues, in the aggregate, are used for both capital expenditures as well as to cover operating expenses and fixed costs incurred to obtain capital from lenders. ASTAC does not segregate USF separately for purposes of capital and operating expenditures; USF is expended in the same proportion as its contribution is to ASTAC's aggregated revenue amount.
