The Champaign Telephone Company

Functionality in Emergency Situations for Voice and Broadband Services

Back-Up Power

All Central Office equipment power is backed up via an 8-hour battery system and a Kohler fixed diesel powered generator connected to a underground 2500 gallon tank.

Major remote offices have an 8-hour battery system with a fixed propane or natural gas generator. One office does not have a fixed generator, but can be powered via a mobile diesel generator stored at the Central Office garage.

Minor remote terminals have an 8-hour battery system and can be supported with one of seven portable gas generators stored at the Central Office garage.

Rerouting of Traffic around Damaged Facilities

All inter-carrier traffic, except for the Windstream office in St Paris, OH, are on optic rings with diverse routing within the ILEC region. St. Paris connection is provided by copper T1 spans between the two Central Offices. All DSLAM remote systems are operating on diverse route 10G optic rings supporting both voice and broadband services to customers.

Traffic Spikes

The voice switch network (loop carrier capacity included) is designed with a **maximum** of 4:1 oversubscription. On a normal day, our internet backbone is running at 90% capacity.

The Champaign Telephone Company

Lifeline Terms and Conditions

The Champaign Telephone Company ("Champaign") offers Lifeline program-supported service to qualified low-income residential consumers for one telephone line per eligible household. The Lifeline program provides discounts to eligible low-income consumers to help them establish and maintain telephone service. Lifeline assistance lowers the cost of basic, monthly local telephone service. Eligible consumers can receive \$9.25 per month in discounts. In addition, the Federal Universal Service Charge is not assessed to consumers participating in Lifeline. Toll Blocking prevents the placement of all long distance calls for which a subscriber would be charged. Toll blocking is available to eligible consumers at no cost. Also, by choosing this option, consumers are usually not charged a deposit.

Lifeline Program Eligibility Information

Program Based Eligibility

Consumers are eligible for Lifeline if they, one of their dependents or their household participate in one of the following qualifying assistance programs:

- Medicaid
- Federal Public Housing Assistance (Section 8)
- Low Income Housing Energy Assistance (LIHEAP)

Numbers of Minutes-of-Use Provided as Part of Lifeline Program Service

Champaign's Voice Lifeline service includes unlimited local minutes-of-use within the toll-free calling area. Champaign's Voice Lifeline Plan does not include any free minutes-of-use for toll. Toll is billed at the standard toll rate depending on which interexchange carrier the consumer subscribes to for toll service. As part of the Lifeline service, Toll blocking is available to eligible consumers at no cost.

Rates

Subscribers may receive the Lifeline credit on any type or grade of local service, including bundled services that are normally offered by The Champaign Telephone Company. Advertised rates do not include any applicable taxes or surcharges.

Recertification of Lifeline Eligibility

Lifeline recipients are required to recertify their eligibility annually. Failure to properly recertify a recipient's continued eligibility for the Lifeline program will result in termination of the Lifeline recipient's monthly Lifeline discount and de-enrollment from the Lifeline Program.

Additional Lifeline Program Information

The Lifeline program is limited to one benefit per household, consisting of either wireline or wireless service. A household is defined, for purposes of the Lifeline program, as an individual or group of individuals who live together at the same address and share income and expenses. Lifeline is a government benefit program, and consumers who willfully make false statements in order to obtain the benefit can be punished by fine or imprisonment or can be barred from the program.
