

To Whom it May Concern:

My name is Ben Sondgeroth and I am the contact person for Morrison Community Unit School District 6. We are requesting an appeal to the extension denial we received on our ERATE BEAR form filed on October 28th, 2014. We filled out the BEAR 486 form on that day, but filled it out for the incorrect funding year. Our reason for requesting this extension is that we experienced a change in our ERATE administrator and had a lot of confusion on what funding year we were inputting the information for. While doing this we mistakenly input FY 2014 information instead of FY 2013 which was required. I will list the information that should have been input below. I apologize for the confusion, and we hope that our Form 486 will be allowed to be adjusted so we can receive the funding for FY 2013. We originally went through USAC for this process but were led to the wrong department and filed the wrong information. We then filed an appeal through the FCC, and were directed back to filing an appeal with USAC, where again we were denied. Our last hope to appeal this decision and get the funds for our school is with this appeal to the FCC. We hope that this issue can be fixed with the help of the FCC. The USAC Denial Letter is also attached. Thank you.
