Zimmer Holdings, Inc. (NYSE and SWX: ZMH), parent company of Zimmer Dental Inc., is the worldwide #1 pure-play leader in the design, development, manufacturing and marketing of reconstructive orthopaedic implants, including joint and dental, spinal implants, and trauma products and related orthopaedic surgical products. Zimmer was founded in 1927.

With headquarters in Warsaw, Indiana and direct operations in more than 25 countries, Zimmer's expertise and innovation in medical education and minimally invasive surgical procedures has positioned the company as a market leader for many years. Zimmer products are currently sold and represented in more than 100 countries, and nearly 9,500 employees worldwide proudly share in our vision of improving the quality of patients' lives everyday.

Implanting positive patient outcomes

Whether it's placing dental implants and regenerating jawbone, or reconstructing hips, shoulders, knees, or spines, the Zimmer family has built a legacy of improving quality of life through our global expertise.

Shaping the future of implant dentistry.

With this support behind us, Zimmer Dental will continue to be a market leader in the development of world-class implantology products, practice-building strategies and educational programs focused on empowering clinicians and shaping the future of implant dentistry.

Certified for ISO 13485, we offer one of the most comprehensive dental implant product lines that meets and exceeds the industry's most stringent quality standards, including root-form endosseous dental implants, prosthetic attachments for restoration, surgical instrumentation, collagen-based wound healing and regenerative products, as well as bone graft products.

Headquartered near San Diego in Carlsbad, California, Zimmer Dental has direct subsidiary operations in eight additional markets outside of the U.S. including Australia, Canada, China, France, Germany, Israel, Italy and Spain. In addition, our global network of exclusive distributors allows us to actively distribute our products in more than 60 countries worldwide.
