RE: MB Docket No. 15-149

Dear Chairman Wheeler,

The Coachella Valley Economic Partnership would like to extend its support to New Charter, a potential new player in the telecommunications industry that stands to bring many benefits to entrepreneurs across its national footprint. New Charter would combine the best of Charter Communications, Time Warner Cable and Bright House Networks in order to cater to the 21st century business economy. We think it would have a big impact on our members through investment in the latest technology and a customer-first model.

Our organization is a nonprofit economic vitality organization devoted to attracting, retaining and expanding businesses, and developing a high-skilled workforce to enhance the economy and quality of life of the region. We are dedicated advocates for our members, and with New Charter we believe we are promoting a pro-business, pro-broadband company that would improve the way many of our members do business.

New Charter would offer our members a range of products, catering to large companies as easily as single entrepreneurs. With broadband speeds ranging from 60 Mbps to 300 Mbps, all types of businesses would be able to find what they need. New Charter would be dedicated to providing the most innovative services, so our members would have the capabilities to compete at the highest level. Customers would also never have to worry about modem fees, data caps or usage-based billing. All of these promises illustrate New Charter's commitment to customers and ensure businesses would find success with its broadband.

We are looking forward to working with New Charter, and believe our members will only benefit from the company. We hope you will consider its positive impact and support the merger.

Sincerely,

A handwritten signature in blue ink that reads 'Joe J. Wallace'. The signature is fluid and cursive, with the first name 'Joe' being particularly prominent.

Joe J. Wallace
Interim President and CEO
