Interior Telephone Company

500: Service Quality Standards & Consumer Protection Rules Compliance

510: Interior Telephone Company certifies that it is in compliance with applicable consumer protection and service quality standards as set forth in Alaska Administrative Rules 3 AAC 53.450 and consumer protection rules as defined in 47 CFR Part 64 Subpart U, Customer Proprietary Network Information and the Federal Trade Commission Red Flag rules to prevent identity theft. A manual for each of those programs is in place and is part of the employees' handbook. Employee training is conducted and new hires are instructed on the programs as required by their job functions.

Interior Telephone Company

600: Functionality in Emergency Situations

610: Interior Telephone Company certifies that it has and will continue to take steps to remain functional in emergency situations in compliance with requirements set forth in 47 CFR 54.202(a)(2).

Interior Telephone Company has ten telecommunication local exchange serving areas. It uses (central office) switches from several different manufacturers (vendors) to provide the service. The manufacturers include Redcom, Metaswitch, and Genband (formerly Nortel). Additionally, several of its serving areas have remote nodes. The node manufacturers include Calix (formerly Occam) and Telabs (formerly AFC). Each central office and interconnecting network equipment site contains provisions for reserve power to keep all equipment operating without interruption for at least eight hours at the busy-hour load following any failure of the primary electric power source. All switches and nodes have 8 hour battery back-up. Additionally, the switches have back-up generators which will provide power indefinitely.

At eight of Interior Telephone Company's local exchange service areas, it provides a stand-alone switch (not connected to other central offices) directly connected to two separate IXCs. There are separate cable routes to each IXC. If either route is damaged access to long distance is attainable through a dial around process. At two of its local exchange service areas, it connects to IXCs on a collapsed SONET ring. All of Interior Telephone Company's switches are non-blocking blocking and capable of handling traffic spikes resulting from emergency situations.

Interior Telephone Company has established procedures to be followed by its employees in the event of emergencies.

Interior Telephone Company

920: Tribal Engagement Document

Tribal lands in Alaska are defined differently than what typically is used to describe tribal lands and tribal authority in the contiguous 48 States. Alaska Native Regions were not carved out of existing reservations and occupy a different legal status than allotments which are defined as Indian Country under 18 USC Sec. 1151. They include all Alaska Native Regions established pursuant to the Alaska Native Claims Settlement Act. (ANCSA), 43 U.S.C Sec. 1601. ANCSA lands do not qualify as Indian Country. This Act extinguished the Alaska tribes' aboriginal title to land, while creating village and regional corporations that received title to certain lands within 12 geographic regions of the state. The shareholders of those ANCSA corporations are primarily tribal members and their descendants. The ANCSA regions consist of the entire State of Alaska and are defined as tribal lands.

TelAlaska, Inc.'s subsidiary, Interior Telephone Company (ITC) is a public utility corporation (Certificate No. 165) providing local exchange telephone service to the following communities: Cold Bay, Cooper Landing, Fort Yukon, Galena, Iliamna, King Cove, Port Lions, Sand Point, Seward, Moose Pass and Unalaska. Three of these communities are located on a road system, the rest are remote isolated communities spread across a large area of the State: from 800 miles west of Anchorage on the Aleutian Islands, to over 400 miles north of Anchorage near the Arctic Circle on the Yukon River.

921: Needs Assessment and Deployment Planning with Focus on Anchor Institutions

ITC strives to work in conjunction with its Alaskan Native community leaders and anchor institutions to assess, plan and deploy telecommunication facilities in its exchange service areas. During 2014, ITC undertook the following steps to communicate with its Alaskan Native community: Using its assembled list of native leaders with contact information for all of federally recognized tribes in ITC's serving areas from the Federal Register, Dave Goggins, President and General Manager initiated direct contact via phone calls to native leaders, covering each of ITC's exchanges. The purpose of these calls was to discuss and describe the Tribal Government Engagement Obligation as reported in the July 19, 2012 FCC Public Notice and open or continue a dialogue with the local leaders. During these direct conversations, the native community leaders offered direct and candid feedback on the quality of ITC's voice and broadband services to their community as well as what if any concerns they may have regarding new service opportunities. Mr. Goggins shared ITC's plans on future network activity and provided the native leaders with direct contact information for any future discussions.

922: Feasibility and Sustainability Planning Tribal Land Network

See narrative response to 921.

923: Marketing Services in a Culturally Sensitive Manner

Interior Telephone Company staff has strived to devise marketing strategies that are culturally sensitive. Given that all of ITC's customers reside on Alaska Native Region lands, the intent of its marketing strategy is to appeal to, and be appropriate for, Alaskan Natives. ITC management and staff have attended regularly scheduled monthly community events and meetings. In addition, ITC staff work directly with local leaders and residents in the communities, which keeps ITC's marketing message continually fresh, relevant, and sensitive to the culture of those currently served and to be served in the future. Marketing materials also feature photos of Alaska Native families rather than purchased images from stock photo companies.

924: Rights-of-Way Processes

ITC obtains Right of Way permits from the State of Alaska, Federal agency or tribal organization which has the legal ROW authority over these lands. Local village administrations are also contacted as applicable before accessing roads, easements or private property, informed of the intended project and offered opportunities for feedback. ITC engineers design plans to ensure total compliance with all Right of Way permitting requirements.

925: Compliance with Land Use Permitting Requirements

ITC complies with all federal, state and/or local land use permitting requirements as applicable. There are no known specific tribal permitting requirements. As a component of its telecommunications infrastructure deployment planning process, ITC communicates with local village council representatives to inform them of planned land uses, provides a map of the impacted areas, offers opportunities for feedback and if applicable, obtains a letter of non-objection for placement of network facilities.

926: Compliance with Facility Siting Rules

ITC works to ensure that all required facility siting rules, federal, state, and other are completed to the satisfaction of these governmental authorities and consistent with the needs of the Alaska Native communities.

927: Compliance with Environmental Review Processes

ITC works to ensure that all required environmental assessments, federal, state, and other are completed to the satisfaction of these governmental authorities and consistent with the needs of the Alaska Native communities.

928: Compliance with Cultural Preservation Review Process

As an Alaskan company, ITC has the highest sensitivity regarding preserving the cultural integrity of the land. Understanding that Alaska native lands are rich with artifacts and ancient burials, ITC ensures that applicable cultural preservation requirements are always followed.

929: Compliance with Tribal Business and Licensing Requirements

N/A. ITC complies with all business and licensing requirements of the State of Alaska.

Interior Telephone Company

1200: Terms and Condition for Lifeline Customers

Interior Telephone Company provides local wireline voice telephony service to eligible Lifeline subscribers.

1221: Information describing the terms and conditions of the local wireline voice telephony service offered to Lifeline subscribers by Interior Telephone Company are outlined in the tariff sheets below.

1222: Local wireline service is provided by Interior Telephone Company at a flat rate per month and includes unlimited local calling. This is the same service offered to Lifeline subscribers.

1223: Lifeline subscribers may choose to block toll access at no charge to them or choose a long distance provider of their choice for the best toll calling plans and rates available to them.

GENERAL EXCHANGE SERVICES

ENHANCED LIFELINE SERVICE

A. GENERAL

Enhanced Lifeline Service is a reduction in basic local service charges for residential service, available only to qualifying low income customers living on tribal lands. Qualifying customers pay reduced charges for a primary residential line as a result of the application of payments from the state and the interstate universal service funds and a waiver of the qualifying customer's end user subscriber line charge. All customers in the Company's service area are deemed to live on tribal lands.

B. REGULATIONS

1. Enhanced Lifeline Service will be offered to any requesting customer meeting the following criteria in (a) and /or (b) below:

a. The customer lives in a household with income at or below 135 percent of the current official Federal Poverty Income Guidelines published annually in the Federal Register by the United States Department of Health and Human Services. For purposes of applying the poverty guideline, the term "family unit" means all persons who occupy a housing unit, whether they are related to each other or not.

b. The customer participates in one of the following programs:

- Supplemental Security Income (SSI)
- Food Stamps
- Medicaid
- Federal Public Housing Assistance
- Low Income Home Energy Assistance
- Bureau of Indian Affairs general assistance
- Tribally administered Temporary Assistance for Needy Families
- Head Start Programs (only those meeting its income qualifying standard)
- National School Lunch Program (free meals program only)
- Alaska Temporary Assistance Program
- Alaska Adult Public Assistance Program
- VA Disability Pension
- Child Care Assistance Program - PASS I, PASS II, PASS III
- WIC - Women, Infants & Children Program
- Alaska State Housing Corporation Programs

c. The customer must sign, under penalty of perjury, a document certifying:

1. The customer's income is at or below the 135 percent threshold specified in B.1.a. preceding or the customer is receiving benefits from one of the programs listed in B.1.b. preceding.
2. Name of the program from which the customer is receiving benefits.
3. That the customer will notify the Company if the customer's income exceeds the 135 percent threshold specified or he/she no longer participates in an eligible program.
4. The number of individuals in the customer's household and the customer's household income.
 - i. The customer is required to provide documentation of the income in the form of: a previous year's state, federal, or tribal tax return; a current income statement from an employer or paycheck stub; a statement of benefits from the U.S. Social Security Administration; a statement of benefits from the U.S. Department of Veterans Affairs; a retirement or pension statement of benefits; an unemployment or workers' compensation statement of benefits; a federal or tribal notice letter of participation in general assistance; a divorce decree or child support document, or any other official document demonstrating proof of income.
 - ii. If the customer provides documentation that does not cover one full year, the documentation must cover at least three consecutive months in the current calendar year.

GENERAL EXCHANGE SERVICES

ENHANCED LIFELINE SERVICE - continued

B. REGULATIONS - continued

- d. The premises at which the residential service is requested is the customer's principal place of residence.
 - e. Enhanced Lifeline Service is available on the primary residential line only. The residential premises shall consist of that portion of an individual house or building or one apartment or flat occupied by a single family or individual(s) functioning as one domestic establishment.
2. Enhanced Lifeline Service shall not be disconnected for non-payment of toll charges; however, the Company may disconnect access to interexchange services should the customer not pay incurred toll charges.
 3. If the customer chooses "toll blocking" the Company will not charge a service deposit.
 4. Enhanced Lifeline Service includes the following:
 - Single party, voice grade access to the public switched network;
 - Access to emergency service;
 - Access to operator service;
 - Access to interexchange service, unless toll blocking is chosen;
 - Access to directory assistance, unless directory assistance restriction is chosen; and,
 - Toll blocking, if requested.

GENERAL EXCHANGE SERVICES

EXPANDED LINKUP ASSISTANCE

A. GENERAL

Expanded Linkup Assistance is a program for qualifying low income customers which includes a reduction in the Company's customary charge for service connection for a single residential line connection at a customer's principal place of residence, and a deferred schedule of payment of the charges assessed for commencing service, for which the customer does not pay interest. Expanded Linkup will provide a reduction to any standard charges imposed on qualifying low-income individuals as a condition of initiating service, including both line extension and initial connection charges. Expanded Linkup support provides for:

- A 100% reduction, up to \$100 of a qualifying subscriber's initial connection charges (C)
- Total maximum support amount of \$100 per qualifying low income subscriber. (C)

The supported services under this section do not include charges assessed for facilities or equipment that fall on the customer's side of the demarcation point, i.e. customer premises equipment and inside wiring charges.

B. REGULATIONS

1. Expanded Linkup will be offered to any requesting applicant meeting all the criteria as listed for Enhanced Lifeline Services.
