Mr. Tom Wheeler, Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

RE: MB Docket No. 15-149

Dear Chairman Wheeler,

I am writing to express my support for New Charter, a cable broadband company that if approved would benefit the public good through significant infrastructure investment. As a Tennessee Assembly Representative for District 95, I am a strong advocate for positive developments in corporate America. I understand that private industry is capable of contributing greatly to public goods, and I am committed to encouraging these enterprises.

New Charter would combine the best of Charter Communications, Time Warner Cable and Bright House Networks. With a national presence spanning from coast to coast, New Charter would have interests in local communities across the country. New Charter would build on Charter's legacy of regional investment in order to bring customers the latest technology. For example, in the last three years alone, Charter has invested hundreds of millions of dollars to digitize its entire platform. New Charter would continue to digitize, but would also focus on residential networks. Specifically, it would commit to building out one million residential lines across the country. This investment would impact numerous communities, but would especially help rural areas.

I am excited about New Charter's investment plans. I believe they will benefit countless consumers and contribute to a more modernized broadband infrastructure. For these reasons I urge you to approve the merger.

Sincerely,

A handwritten signature in black ink, appearing to read "Curry", written in a cursive style.

Curry Todd, State Representative
Tennessee General Assembly, District 95
