**USAC Designation/ reason for appeal:**  
**'1018907 ALGOMA15 Certified - Out of Window'**

**Rationale for this Request:**

During the 2015-16 eRate filing window, I was tasked with implementing the new eRate changes for the school, this meant confirming the changes with the school and walking through the new rules and eligibilities, and compiling the item 21 data in a fillable format prior to the 471 submission. The school worked feverishly to supply me with this information in time for the effective completion of the Form 471.

**Process that Lead To the Error**

I file for over 200 individual schools, and noticed during the new 2015 filing window implementation that many service providers were not aware of all new requirements for filing, eligibilities, or how to provide data for item 21 forms necessary to upload to the USAC system. As a result I was left with unformatted data on contracts, that were in fact both eRate eligible - and with signed agreements/contracts eligible the 2015 471 filing window.

As a result, these particular Form 471s were not certified on time, however they were **both filed and certified within the extended certification window** of 5-26-2015.

**Circumstances to Consider –**

- Form 471 1051419 was certified on **May 1, 2015**
- Past FCC eRate rulings approving waivers of this nature
- The school acted appropriately and in good faith, signing contract within SLD dates for this FRN request. The new eRate filing guidelines simply required the school to take additional measures to confirm eligibilities, and to upload this data in a USAC acceptable format

DA 12-1469  
September 14, 2012

The Order and Order on Reconsideration reviewed 39 requests from petitioners seeking review of decisions made by USAC under the eRate program. These petitioners were seeking waivers on the Form 471 filing window deadline.

The requests were granted for those schools within 14 days after the filing window deadline.

Justification was cited on past FCC Rules specifically File Nos. SLD-487009, et al., CC Docket No. 02-6, Order, 25 FCC Rcd 9256 (2010) (Academy of Math and Science Order) (finding special circumstances exist to justify granting waiver requests where, for example, petitioners filed their FCC Forms 471 within 14 days after the FCC Form 471 filing window deadline or filed their Form 471 on time, but failed to timely file their certifications); Also, the following order or docket #: CC Docket NO. 02-6, Order, 26 FCC red 354.
