

To Whom it May Concern,

My name is Kelly Watts, I am a 51 year veteran of radio broadcasting. I come from a time when small family owned radio stations SERVED their community in a variety of ways, from broadcasting Community Bulletin Board announcements, to High School Sports as well as covering local happenings of interest. With my background in both commercial and non commercial radio and television I support the petition of KRIM 96.3FM-LP. located in Payson, AZ and community oriented LPFM's. The benefit of loosening FCC restrictions on LPFM stations would ultimately benefit the small communities in which we are located, since we fill such a vital role in the community. Stronger community radio stations equal stronger communities. Relaxation of commercial/underwriting guideline would make sponsorship's easier to obtain and assist the struggling LPFM's to better serve the community
