

Subject: RM-11753

I am writing this statement showing my support of RM-11753.

Thirty years ago I was employee in radio broadcasting.

I worked for a husband and wife team and they owned the local radio station in our community.

It is important that local owners come back to our community.

Corporate owned radio is bad in so many ways. Its all about the dollars and not about the service to the community.

Local radio was the watchdog and people grown use to that and depended on it to keep them up to date and informed of what was going on in the area.

This new breed of non-commercial radio is going to have to change.

Commercials is the life blood of any local outlet. With out it, a voice will be lost or quenched to a non-usable position. All stations regardless of size or transmitter output should be able to support themselves with out the fear of prosecution.

I believe that approval of this petition will be a first step in recreating what once was common, locally owned and operated commercial radio stations. As it should be..

Sincerely,
George D. Faneuf
