

Tom Wheeler  
Chairman  
Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

Dear Chairman Wheeler,

The Hispanic Leadership Alliance would like to extend its support to the merger of Charter Communications, Time Warner Cable and Bright House Networks. We work with the Hispanic community across Texas, offering mentorship, training, and research. We believe New Charter would provide additional benefits to Texas through high-quality products and a commitment to diversity.

New Charter would offer products aimed at efficiency and quality and would be committed to investing in the latest innovations such as investing in in-home and out-of-home WiFi and would work to build fiber-optic network lines in the commercial and residential spaces.

New Charter's products would be coupled with a commitment to underserved and diverse communities. In addition to a low-income program and partnerships with minority businesses, New Charter would offer diverse programming. This would include the largest tier of Hispanic programming available, including El Rey, Fusion, Fuse, NBC Universo, and One World Sports. The reach of this programming, which is currently offered by Charter and reaches an audience of 6.5 million, would substantially grow with New Charter's expanded footprint.

We are encouraged by New Charter's commitment to diversity. We ask you to favorably consider the merger.

Sincerely,

A handwritten signature in black ink, appearing to read 'G. Antuna', with a stylized flourish at the end.

George Antuna,  
Chairman, Hispanic Leadership Alliance
