63.71 Application of Sprint  
Communications Company  
Sprint Advice letter-# 910

To Who it may concern,

I Protest the the possible loss of my landline long distance service, the most important "FONCARD" . My account# with Sprint

I have held this account for close to twenty years.

I need to maintain this account. I use it for long distance domestic and international calls and sometimes with the FONCARD From my landline. I would not want to have to rely on cellphone service which may be non-existent in certain areas. I have contacted other phone carriers, ATandT and Verizon and they do not have the "Foncard" remote service feature which is very important; if you are in a different state or country and only have access to a landline for emergency calls !!!

I have been a loyal customer to sprint and do not want to see this service discontinued !!!

Thank you for your review

John Clancy
