Re: Notice of Oral Ex Parte Presentation – Comprehensive Review of Licensing and Operating Rules for Satellite Services, IB Docket No. 12-267

Dear Ms. Dortch:

On September 18, 2015, Carlos M. Nalda of LMI Advisors participated in a teleconference with staff of the Federal Communications Commission's (FCC) International Bureau (IB) to discuss certain issues related to the above-captioned proceeding. The IB officials participating included Jose Albuquerque, Chip Fleming and Diane Garfield.

During the call, the participants discussed the potential relationship between the FSS earth station antenna gain mask set forth in Section 25.209 of the FCC's rules and the GSO FSS earth station off-axis EIRP spectral density masks set forth in other Part 25 rule sections. In addition, the participants noted the Satellite Industry Association's (SIA) proposals with respect to these rules.

Please contact the undersigned with any questions related to this filing.

Respectfully submitted,

A handwritten signature in black ink that reads "Carlos M. Nalda".
