Subject: wireless firmware

ACCEPTED/FILED

SEP 21 2015

Federal Communications Commission
Office of the Secretary

Did anyone familiar
with the extensive 3rd party firmware offerings participate in this .

The proposed rules
inflict such damage upon the consumer surplus in question that they must have really come from
makers trying to hide their motives . By this ' logic ' we should never permit anyone to ever modify any
microsoft software
ever .

- Best wishes towards
achieving competent public policy - Bruce
