RE: MB Docket No. 15-149

Tom Wheeler
Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear Chairman Wheeler,

I am writing today in support of the merger of Charter Communications, Time Warner Cable, and Bright House Networks into New Charter. I believe the merger will have a powerful impact on the people we serve, and we are particularly delighted by its commitment to low-income families and diversity development.

Para Los Niños is closing the opportunity gap for children in distressed communities by integrating high quality education with wraparound services for children and their families. Within our school communities we offer mental health and other family support; in addition, we help parents support their children's learning through participation in school governance, peer groups and workshops on a range of issues. In total, Para Los Niños serves 7,500 children, youth and their families in downtown Los Angeles each year.

I am excited to learn that New Charter will engage with low-income households through a special discount on quality broadband and allow consumers, so often priced out of the market, to have valuable broadband services. I understand this is just one of New Charter's projects aimed at inclusion and they will also work to diversify its industry through initiatives in hiring, procurement, programming, and community investment. I am excited by the company's offerings in Latino programming, which would include the largest tier of channels in the market. I know the families we serve would appreciate the option to choose diverse programming at an affordable price. I am excited about the many options available under New Charter.

I hope you will consider the value in New Charter's low-income program and diversity initiatives, and join me in support of the merger.

Sincerely,

Martine Singer
President and CEO
