Re: Proceeding No. 15-149

Dear Mr. Wheeler:

On behalf of Green Lake Township I am writing in support of the proposed merger between Charter Communications, Time Warner Cable and Bright House Networks. As a current Charter Communications customer we have had the opportunity to experience much of what Charter intends to bring to the table for Time Warner Cable and Bright House network customers.

The importance of fast, reliable broadband connections for homeowners, students and business customers continues to increase and we are in favor of "New Charter's" commitment to expansion of its network to more homes and businesses, to creating more out-of-home access to Wi-Fi, and to broadband for low-income customers. We feel that this merger will benefit Green Lake Township and the surrounding governmental agencies and residents with better broadband service that is more available and affordable for our residents.

We have had a positive experience with Charter Communications and believe at this time that they will live-up to their commitments that puts "the customer first".

Sincerely,

Paul Biondo _{BH}
