GSD Vision: "Providing a premier education in a 21st century learning environment to develop tomorrow's responsible leaders."

September 30, 2015

Tom Wheeler, Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear Chairman Wheeler,

RE: MB Docket No. 15-149

The Garvey School District educates children from kindergarten to eighth grade. Our students come from diverse backgrounds, and we are committed to providing a 21st century education to all. Technology skills are increasingly important, and our school works to expose students to the latest innovations in order to prepare them for the future. We are excited to partner with the proposed cable broadband company New Charter and we ask you to approve its merger.

New Charter would combine Charter Communications, Time Warner Cable and Bright House Networks. The company would offer schools like ours across the country the tools we need to educate our students. In addition, New Charter would be committed to improving access at home, allowing many of our underserved children to connect with technology outside of school. The company's low-income program, which would provide high-quality broadband at a reduced rate, is a great illustration of its commitment to community development.

We believe New Charter's innovative services would help our school. We look forward to using the technology to prepare our students for their future, and we are encouraged by the company's outreach to low-income households. Please consider the positive contribution of New Charter to schools and communities like ours, and approve the merger.

Sincerely,

Henry Lo, President
Board of Education
Garvey School District
