Re: Docket 14-150

Dear Ms. Dortch:

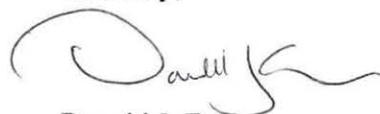

Below is a link to a test procedure used by PMCM TV, LLC to evaluate whether the problem identified in the tests depicted in our October 15, 2015 submission in this Docket are common to other markets. For this test, we used two channels identified by the Commission's staff where overlapping stations share a PSIP and an over-the-air channel.

As shown in the video, the results for compliant and non-compliant sets in the Philadelphia market were the same as for the New York market.
