Dear FCC,

My name is Chris pratt and I live in Sanford, ME.

The principles of user choice and control are vitally important for a vibrant wireless ecosystem. But as written, the NPRM threatens to undermine these ideals by limiting what users can do with their devices. That's a concern, because I want to be able to update my own wireless software?not rely on slow manufacturers shipping updates.

The draft rules could enable device manufacturers to forbid third-party software, which would make me feel less safe about the wireless networks I use and operate.

The fcc will go ahead as planned regardless of any statements made by anyone . The Internet will become what television and the auto industry has turned into a closed market and everyone will suffer the consequences of their actions because they wanted to make more money. i hope this will not happen but hope is a luxury most people can't afford. I know my dreary submission holds no value as i realize most likely no one will read this but please someone do something about this our internet freedom is at stake and if i could i would thank whoever started this petition .

Sincerely,

Chris pratt
