Dear FCC,

My name is Glenn Seaton and I live in Bentonville, AR.

The principles of user choice and control are vitally important for a vibrant wireless ecosystem. But as written, the NPRM threatens to undermine these ideals by limiting what users can do with their devices. That's a concern, because I want to be able to update my own wireless software?not rely on slow manufacturers shipping updates.

The draft rules could enable device manufacturers to forbid third-party software, which would make me feel less safe about the wireless networks I use and operate.

I don't want to end up paying for the right to surf the web. The internet should remain open to everyone, not just rich companies.

Sincerely,

Glenn Seaton
