Dear FCC,

My name is Jeff Tipps and I live in Lookout Mtn, TN.

The principles of user choice and control are vitally important for a vibrant wireless ecosystem. But as written, the NPRM threatens to undermine these ideals by limiting what users can do with their devices. That's a concern, because I want to be able to update my own wireless software?not rely on slow manufacturers shipping updates.

The draft rules could enable device manufacturers to forbid third-party software, which would make me feel less safe about the wireless networks I use and operate.

The airwaves belong to the American people! Not the government or device manufacturers! Third party software should be able to be downloaded on any private citizen's property as they see fit,

Sincerely,

Jeff Tipps
