Chairman Tom Wheeler
Federal Communications Commission
445 12th Street SW
Washington, DC 20554

Dear Chairman Wheeler:

It is my understanding; Charter Communications announced plans to merge with Time Warner Cable and Bright House Networks. Charter Communications has been a long time provider of cable, internet and telephone service in the Village of Spring Lake, and we are pleased we will not be losing their services.

The Village of Spring Lake administration supports the proposed merger, as it will improve internet speeds and a potential for lower cost of service for those who need broadband access. This merger will set the stage for improved communications infrastructure throughout the Midwest.

Please contact me if you have any questions or comments.

Sincerely,

Christine Burns
Village Manager
