Ref: Request FCC Approval of Region 10, 700 MHz RPC Plan Changes

Dear Sir/Madam:

IAW FCC 14-172, Region 10 is requesting FCC approval of the changes made to the attach 700 MHz Plan. This submittal includes two files (1) a highlighted version of Region 10's 700 MHz Plan highlighting both minor and major changes and (2) a clean (w/o highlighting) version of the plan.

Region 10's 700 and 800 MHz RPC held its annual meeting on September 30, 2015, and vetoed and approved the changes made to the attached 700 MHz Plan. A copy of the meeting's Public Notice and minutes are included in Appendix I of the 700 MHz Plan.

The adjacent state concurrence letters are filed under the plans "Place Holder for Signed LOC & Dispute Resolution" tab.

This action is in compliance with the Region 10, 700 MHz Plan and FCC 14-172, and is recommended to be acted upon favorably by the FCC.

Thank you for your assistance and cooperation in this matter.

Respectively,

Jim Mollohan  
700/800MHz RPC, Region 10 Chairman
